Colonists Planted Rice
Rice was planted by colonists at
Charleston, S. C., before 1700. By
178 it had become an important
export grain cultivated all along the
Atlantic coast from the Carolinas
south, and at a few places on the
Gulf coast. Gradually, however,
profit waned. War between the
states affected the rice business and
hastened the westward trend of rice
farming.

Vitamin A in Ice Cream Of the vitamins, vitamin A is con-ained in ice cream in the greatest amount.

Ancient Road of Gravel
First surface of the ancient Applan
way was gravel. Paving cains much
later. Milestones and repair irecords occasionally turned up throw
light on highway traffic in the age of
chariots.

ORDER OF PUBLICAT

Senator Vandenberg has pointed out that inflation is the deadliest meaning today on our home front. He warms that unless something is done at Washington with wisdom and courage—putting national interest ahead of selfish inflation gets out of control. We are inclined to believe that Vandenberg has something worth thinking about. The Michigan senator may have the answer.

Beugh Weol

Did you ever see a wood fiber through a micrescope? It looks rough and scaly, entirely different from shiny silk. That's why yous coat or desse of wood picks updated and odors so easily. It's best to brush these clothes thoroughly and air them frequently.

Rough Wool

Did you ever see a wool fiber through a microscope? It looks rough and scally, entirely different from shiny silk. That's why your coat or dress of wool picks up dust and odors so easily. It's best to brush these clothes thoroughly and air them frequently.

Victory

Continued from Page 2) onion, rutabaga and turnin, alfalfa seeds, including all state certified improved varieties, have been made subject to control of the price regulation governing legume and grass seeds by OPA. This regulation now included the following domestic and Canadian seeds: alfalfa, imedium red clover, mammoth, red clover, alsike clover, sweet clover, timothy and improved those seeds.

mula, which resulted in Increased returns to augar cane growns. Increases in No. 10 cans—lightly less than one gallon—are; about 10 cents for country cane syrup, 10 cmmerly known as Louisland cane syrup, and 4. to 5 cents of commercial cane syrup, formerly known as Georgia cane syrup, Accumulators, mostly country store operators, have been granted an increase from 1 to 2 cents a gait to for their handling charge.

per cent had been rationed under the meats-fats-cheese program. Batteries For Hearing Alds Batteries designed for use in hearing aids are being sold only by hearing aid desiers, and not in drug or general stores. This pre-caution has been taken by WPB in order to prevent their use for flashlights or other purposes.

Action so rapid as to be invisible is caught by flashes of light one millionth of a second in duration.

War Shipments
In the first 12 months of the war,
the quantity of petroleum and petroleum products sent to our troops
was more than 80 times that shipped
in the first 12 months of the last world war. Instead of horses, mules and forage, our armed forces now use trucks, tractors, bulldozers, gas-oline and oil.

Root Crops Hardy
Root crops, which are parily buried in the ground, are well protected.
The surface of the soil may freeze
several times without causing any
harm to the roots.

"How can I save

- -coal?
- -transportation?
- -manpower?"

Answer

SAVE ELECTRICITY!

You can't see electricity, but if you could you'd discover that many things go into its manufacture . . . coal and transportation and manpower and the tremendous energy of giant turbines, plus various critical war materials.

Today the conservation of all these things is vitally important in winning the war. You save half-a-dozen at once when war. 100 save electricity. For the raw materials used in making electricity are essential war materials . . . needed to keep America's war production moving at top speed.

Remember this when you snap on a light switch. Use only the lights you actually NEED. Be careful in your use of electric appliances and equipment. There is no shortness of electric apparature of electric constitutions. no shortage of electric generating or dis-tibuting facilities in this area, but the Government cake everyone to save VOLUNTARILY, to conserve critical resources. Even though it is not rationed, saving electricity is the patriotic duty of every American citizen today. The Detroit Edison Company.

CONSERVE ELECTRICITY

Even a 5% saving in the monthly use of electric my by Detroit Edison customers will save about
