

Concert Listed As Spring Activity

Plans are being made for the annual Spring Concert. It will consist of both instrumental and vocal music. If anyone is musically inclined and would like to take part, he should see Mr. Crane immediately.

The Dance Orchestra will also make an appearance at the concert.

The proceeds will go toward new uniforms. It's only natural for the students and townspeople to be proud of their school band, so do your part and make a date for a good evening's enjoyment as well as helping to buy uniforms.

HOME IMPROVEMENT EMPHASIZED IN EC CLASSES

As a perfect ending for a good beginning, the Homemaking 1 class is finishing a Child Care training by telling suitable stories for children. Mary Tanaka was chosen as the best story teller. Elsa Nystrom gave a report on books for children, and the rest of the class made a toy exhibit, demonstrating good and bad toys.

This course has benefited the girls by making them more efficient in caring for children.

In order to make the most of small spaces, the Homemaking 2 class has been studying closet arrangements. They are also making closet accessories including shoebags, laundry bags and hat boxes.

The hostess for the month, Marian Bolyard, planned a Valentine luncheon last week.

In accordance with the theme, the Homemaking 3 class had a Valentine dinner last week, which they prepared themselves. They also gave a lending hand in the cafeteria by making cakes.

—L.L.

**BRASS QUARTET TO PLAY
AT FATHER - SON BANQUET**

A brass quartet, which consists of three cornets and one baritone, will play at the Father and Son Banquet, February 22, at the Persimmon School.

The boys making up the quartet are Bill Conroy, Carl Regal, Bill Brooks and Al Schweizer.

CRANBROOK TAKES VICTORY BY ONE POINT

Last Friday night Farmington played one of the strangest games of the year at Cranbrook.

Farmington's scoring lagged in the first half when they collected only 13 points to Cranbrook's 28.

Fred Hamlin of Farmington kept his reputation for being one of the high scorers by getting 6 baskets in the last half.

Hutton of Cranbrook put on a fine display of scoring by making 18 points.

To the last minute Farmington fought hard to win this game. As this was not a league game, Farmington still holds first place.

Redford Union won their game from Walled Lake by 4 points.

Tuesday P.H.S. plays Northville, another league team, at 3:30 in our gym. On Friday Farmington plays Redford Union on the opponent's floor.

The Box Score

	FG	FT	P
Streling	1	1	0
Carley	0	1	0
Doll	2	1	0
Koomeksky	0	1	0
Tyler	0	0	2
Hamlin	6	1	0
Higbert	0	1	0
Bacon	2	5	3
DeVriendt	0	0	0
Aschenbrenner	3	1	1
Brough	0	0	0
	14	12	6

THE LIBRARY TAKES TO THE AIR

As we all know, air power is and will be playing an important part in civilization. The library offers a wide selection on this kind of material. Two of the more recent books are "Bombardier" by Henry B. Lent and "American Warplanes" by Elizabeth Mallett Conger. These books are well illustrated. "Bombardier" tells about the crew, while "American Warplanes" acquaints one with the warplanes of today.

For those who are interested in the men who "float through the air with the greatest of ease" we have the book "Parachutes" by Herbert S. Zim.

Women also are finding a place for themselves in the air. Amelia Earhart's book, "Last Flight," is a contribution of our best known air heroine.

Edited by Alice V. Kellher, "Air Workers" takes you from the rise of aviation through special jobs for the well trained pilots of today.

To follow the airplane from making to the sky you should read "Aviation From Shop to Sky" by John J. Floherty.

—S.J.

'TIS SAID ...

A couple of shop "kids" are doing a pretty good job of building a window ventilator in our Journalism room—just call Doll and Fisher "jacks" of all trades.

The girls of Mr. Ryan's Cooperative Training Class have started a bowling league to be held Monday nights. As soon as you want some competition, we'll challenge you.

Something has been going on in Mr. Davis' Physics class the past week? We looked in the gym and the shades were pulled, the lights were out and only a few lighted candles were burning. The mysterious feeling made many shudder.

Some of the girls in the gym classes have formed a basketball team. We, the ex-players of the team of F.H.S. not in the gym classes, challenge you to a game.

Dear Love N. Lost,

We have seriously considered your problem and have come to the conclusion that the only way out is to — walk out!

—Stella Looking.

WE'VE FOUND ...

Cecil C. Kellogg recently enjoyed a leave with his parents, Mr. and Mrs. Cecil Kellogg, who live on Brookdale Avenue.

Cecil, who was stationed at Great Lakes, Illinois, would have been graduated from Farmington High School this spring. He may be reached at:

313-46-48, O.G.U.P.O., Great Lakes, Illinois.

Word has been received of a change in Ernest Mitchell's address. It is as follows:

Ernest E. Mitchell, S 2/2, Group 2 Radio School, U.S.N.T.S., San Diego, 33, California.

—B.R.

MATH STUDENTS CHANGE WORK TO PLAY

As initiation into the Farmington Life Members' Mathematics Club, Mr. Oliver requested the fourteen members of this Solid Geometry Class to write to former math students to find out how they have used math in their work since they have been graduated.

The answers will be posted on the bulletin board in Mr. Oliver's room as soon as they arrive. Anyone is welcome to read them.

If you happen to see any suspicious acting people, don't worry. It's Mr. Chapman's Plane Geometry class out looking for buried treasure. They're studying the location of points and objects through given conditions and are trying to get a profit out of it in more ways than one.

That Physics class! They've been having the shades down an awful lot lately—and they're not having movies. Actually they're working on their lab experiments which deal in light (or a lack of it) and require only certain amounts in certain places.

A few people have been going around here talking in nothing but dots and dashes—but don't bother to call Pontiac. It's just the Code class getting in all the practice possible. They're making a rapid progress in their study of the Morse Code.

Practically everyone has noticed the bulletin board in Miss Pavlovich's room. Her, fourth hour.

History class has decorated it in honor of the birthday of Washington and Lincoln.

Using the financial page of the news, Mr. Hutton's Economics class is doing some market speculation. They are making investments in different companies and corporations in an attempt to see how much money they would gain if they were to actually try it.

—Z.L.

Sweetheart Swing Appeals To Many

The usual jam-session went on Saturday night when the Student Council gave a dance in honor of St. Valentine's Day. A little extra entertainment was provided by some sharp character who brought a talking box. You just talk into it and hold it up to your ear... then it answers you! I was one of the innocent victims who investigated. Yes, I got the point! Everyone had fun anyway.

**Save electricity to
SAVE COAL**

**... don't leave
lights burning wastefully!**

It's so easy to turn on a light in an unoccupied room or a clothes closet or the attic of your home—then forget it. And that light burning needlessly may go unnoticed for hours.

Ordinarily this wouldn't be too important... perhaps half-a-cent's worth of electricity wasted. But that light in the clothes closet burns COAL. Electricity requires coal and manpower and transportation and other critical resources for its manufacture. And today ANY waste of electricity is serious.

The Government asks everyone to conserve electricity, even though it is not rationed and there is no shortage in this area. Save VOLUNTARILY whenever and wherever you can—in home and store and office.
