

Victory

(Continued from Page Two)

effective February 27 are valued at 10 points each. All tokens are valued at one point each and will be given for change only when a purchase is made. No more than nine tokens need be given as "change" in one transaction.

To Review Farmer Deferments
Local Selective Service Boards have been ordered to review promptly deferments of agricultural workers because of the shortage of available manpower for the armed forces. Selective Service has announced. "It is not expected that local boards will defer or continue to defer a registrant as necessary to and regularly engaged in agriculture unless by his own personal and direct efforts he produces 16 or more war units each year." Selective Service asserted. About 1,700,000 men in agriculture were deferred in class 1-C and 1-D as of January 1, 1944. Of this total, 400,000 are single men below 22 years of age and more than one million non-fathers below the age of 22 were deferred as of January 1.

Rubber Footwear Prices Up
An average increase of 6 1/2 per cent in retail selling prices of waterproof rubber footwear—rubbers, articles, gaiters, and rubber boots—has been allowed by the Office of Price Administration to compensate for increased costs. For these higher prices the public will get rubber footwear more nearly approaching the quality of pre-war rubber footwear than that of the victory line product, OPA said.

Announce More Support Prices
Support prices proposed by the War Food Administration for hay and pasture seeds in 1944 are in general higher than those of last year. Increases of 3 cents per pound were proposed for northern alfalfa, red clover, alsike clover, and biennial yellow sweetclover, and of 2 cents a pound for biennial white sweetclover and Sudan grass. Western grasses would be increased as much as 50 per cent because of harvesting difficulties, and several grasses appear on the support program for the first time this year.

Less Paper Work To Build
Less paper work for persons who build privately financed housing construction is assured by War Production Board Order P-55-C. This order, announced jointly by the WPB and the National Housing Agency, eliminates filing of a detailed list of materials and permits use of materials that will conserve lumber and fuel. A simplified procedure for farm housing, which was excluded from Order P-55-C, was provided in CMP regulation 6, effective February 15.

Fruit-Vegetables Set Aside
Canners were directed to set aside increased quantities of canned fruits and vegetables from their 1944 production for government requirements in order to meet expanded military needs, WPA has announced. The increases principally are for canned apples, fruit cocktail, peaches, pears (Bartlett), lima beans, sweet corn, peas, tomatoes, and tomato juice.

WPB has authorized production during 1944 of 1,400 motorcycles for essential domestic civilian use, 30 for Canada, 650 for export, and 50,000 for military use.

Use more potatoes in 1944 is the recommendation of WPA following the harvesting of the largest potato crop in history last year. . . . WPB expects a limited number of domestic electric ranges to be available for essential civilian needs during the last half of this year. . . . U.S. war expenditures in January amounted to \$7,416,000,000, almost 7 per cent over December, and an average daily rate of \$285,200,000. . . . Because of problems in getting feed, U.S. production of hatchery chicks in January last year was 20 per cent over January last year. . . . Total retail sales for 1943 were \$53,269,000, an increase of 10 percent over 1942, according to the Department of Commerce. . . . Boys and girls under 20 who leave home seeking war jobs should carry with them proof of their age, advises the U.S. Department of Labor. . . . Copper may now be used in the manufacture of automobile radiators, gaskets, fuel and oil lines, brake and clutch lining rivets, and other essential parts, according to WPB support program for the first time this year.

Small business is more important to this nation today than ever before," declared Donald M. Nelson, chairman of WPB, and should be given top priority when surplus materials of war are released. . . . Although the point-of-sale plan did not go into effect until December 18, this collection for December were 83 per cent over November, WPB reports. . . . If war food goals are to be met, all available red clover seed must be planted this year, WPA asserted. . . . WPB has reduced the 1944 manufacture of paper towels for home use to 90 percent of the 1943 base period output. . . . Farmers will have more potato sales for fertilizer use this year than during the two preceding years, WPB announces. . . . A general retail price reduction to the consumer of Chinook salmon is expected to result from establishment by OPA of a 20-cents-per-pound ceiling price for certain producers.

Many Laws Prohibit
Importation of Parrots
Service men abroad were advised by Secretary of the Interior Harold L. Ickes not to bring parrots back to the U. S., explaining that the trouble involved in getting a parrot into this country is usually more than the parrot is worth. . . . Because parrots, and other members of their family, may be infected with the dread disease, psittacosis, some cities and states will not allow them to be brought within their borders. In addition Federal regulations have to be followed at those places where entry is allowed. . . . Birds of the parrot family include, besides parrots themselves, Amazons, Mexican double hawks, African greys, cockatoos, macaws, parakeets, lovebirds, lorikeets, lorikeets, and similar birds, according to the Fish and Wildlife Service. . . . Maryland, New York, Connecticut, Florida, and the cities of Baltimore and Pittsburgh prohibit the importation of all species of parrots under any circumstances; they cannot be brought in even for scientific purposes. If anyone attempted to bring them into those places, the birds would be seized by health authorities and destroyed. Parakeets or lovebirds may not be imported into California, Maine, Minnesota, and Oregon, in addition to the other states listed.

pose of vocational education. Dr. Elliott favors a broad program of adult education in which vocational training would be included and general instruction would be provided by teachers now on the staffs of local school districts. The state would reimburse the local schools for 75 per cent of the instructional cost, and Dr. Elliott believes that much of the remaining 25 percent would be financed through educational fees paid by those who received benefits.
