LEGAL NOTICES

NOTICE OF PUBLIC SALE
 BY
 RECEIVERS OF FARMINGTON STATE SAVINGS BANK

Notice is hereby given that in pursuance of an order of the Circuit Court for the County of Oakland made on the 2nd day of March, 1944, in the case of Hudson E. Reubert, State Bank Commissioner vs. Farmington State Savings Bank, Case No. 10,725, the undersigned, Receiver of said bank will offer for public sale, at said bank, at 2:00 p.m. Eastern Standard Time, on Wednesday, March 22, 1944, at the office of said Receiver of said bank in the City of Farmington, Michigan, a list of said assets is available in the office of said Receiver of said bank. Persons interested in buying them, may make at the time of said public sale for separate items or parcels or for the assets as a whole but will be finally accepted until approved by the above named Court at a hearing before said Court of the Receiver of said bank, on the 28th day of March, 1944, at 1:00 p.m. Eastern Standard Time.

HARRY W. GROSS,
 Receiver of Farmington State Savings Bank
 Office address of Receiver: Municipal Bldg., City of Farmington, Michigan, (formerly Nevada State Bank Bldg.), Farmington, Michigan.
 Dated: March 2, 1944.

LEGAL NOTICES

HOWARD BOND, Attorney at Law
 204 N. Saginaw Street, Pontiac, Michigan 48301

STATE OF MICHIGAN
 IN THE PROBATE COURT FOR THE COUNTY OF OAKLAND

At a session of said Court, held at the Probate Office in the City of Pontiac, in said County, on the 21st day of February, A.D. 1944.

Present, Honorable Arthur E. Moore, Judge of Probate.

In the Matter of the Estate of HARRY B. NICHOLS, Deceased.

Samuel Davis, administrator of said estate, having filed in said Court his annual account and petition praying for the examination and allowance thereof; determination of the debts of said deceased; and assignment of the residue of said estate; and inasmuch as said administrator has also filed a "boogie" duet, and it is ordered, that the 20th day of March, A.D. 1944, at nine o'clock in the forenoon, at said Probate Office, he and he is hereby appointed for hearing said petition.

It is further ordered, that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Farmington Enterprise, a newspaper printed and circulated in said County.

Arthur E. Moore, Judge of Probate.

LOCALS

A party honoring Donald Edmunds was given by Annemarie Stevens, Betty Troutaud and Mrs. Troutaud, at the latter's home on Angling Avenue on Tuesday evening, February 22. Donald, who is now in the U.S. Navy at Great Lakes. Twenty-six guests were present at the party, and enjoyed games, singing and dancing. Jackie LeBlanc sang several songs and played the piano. Donald and Harold Stevens also gave a "boogie" duet. Mary Jane Farmer presented two lovely poems of her own composing. "The Story of a Coconut Cake," which followed a soldier for a long time, and "A Prayer for a Soldier," which brought tears to the eyes of more than one of those who heard it. Donald received several gifts, including a wallet, toilet articles, and a fountain pen from his many friends and neighbors and good wishes from all.

Harold Stevens, son of Mr. and Mrs. Stevens of St. Francis Avenue, has enlisted in the U.S. Marine Corps and is now awaiting orders to report for duty. The office staff of the Chrysler Building where Harold was working before he enlisted, presented him with several gifts and a card with eighty six names, contributors to the beautiful present, including a completely fitted water-proofed duet bag, a money belt, and a sterling identification bracelet, together with a sum of money to pay for the engraving. Another son of the Stevens, William, enlisted in February, 1941, and has been in Alaska for almost two years. They have been two and a half years since he has been home.

Private Richard Doudy was a surprise visitor on Friday night at the homes of Mrs. Troutaud and Mrs. Stevens. Richard arrived unexpectedly from El Paso, Texas, on a twelve day furlough. On learning that all the people were at the "sweater swing" at Clarencerville High School, he also went to meet them there and enjoy the fun.

Mrs. P. G. Schlotterbeck of Beech Hill Road and Mrs. H. J. Bostwick of Wellington Road were callers Tuesday afternoon at the Terrault home. In the evening guests of Mrs. Terrault were Mr. and Mrs. Frazer Kulls of Hagerstown and Mr. and Mrs. George Ellis of Ayleck Road.

Each cow has been found to have mastitis, she should be moved so as to be milked after the mastitis-free cows. Better yet would be to isolate such cows in a separate barn if available. Good results, however, may be obtained from keeping infected cows in the same barn if they are milked last. First-calf heifers are most free from mastitis and good management dictates that they be milked first, followed by the normal older cows and infected cows last.

Hungry Hens' Produce Each hen in the Lansing house needs one-third foot of space at the feeder. Hungry hens do not produce many eggs.

Isolate Mastitis Victims After a cow has been found to have mastitis, she should be moved so as to be milked after the mastitis-free cows. Better yet would be to isolate such cows in a separate barn if available. Good results, however, may be obtained from keeping infected cows in the same barn if they are milked last. First-calf heifers are most free from mastitis and good management dictates that they be milked first, followed by the normal older cows and infected cows last.

Better yet would be to isolate such cows in a separate barn if available. Good results, however, may be obtained from keeping infected cows in the same barn if they are milked last. First-calf heifers are most free from mastitis and good management dictates that they be milked first, followed by the normal older cows and infected cows last.

Isolate Mastitis Victims After a cow has been found to have mastitis, she should be moved so as to be milked after the mastitis-free cows. Better yet would be to isolate such cows in a separate barn if available. Good results, however, may be obtained from keeping infected cows in the same barn if they are milked last. First-calf heifers are most free from mastitis and good management dictates that they be milked first, followed by the normal older cows and infected cows last.
