### Michigan Mirror

(Continued from Page Two)  
melodrama is yet to come and that those who are accused should not be prejudged of their guilt or innocence until the evidence is presented by both sides and the jury announces the verdict.  
Another bit of Lansing drama, that is currently engaging the audience's attention, concerns the well-publicized "boss" of the Michigan Republican party. Here is a man of professed mystery who has emerged from the fires of a federal court trial, and remains today the titular representative of his party, its national committee man.  
For years the boss, portrayed traditionally in the character of a villain, has been the target of party reformers who declare him to be an artful Simon Legree. Each state convention has become the scene of "anti-boss" crusades until the party itself has become well factionalized. Defenders of the boss loudly proclaim to possess the strength of wise leadership, while his critics smartly denounce him in words equally fervent.  
Now comes, in the hero's role, the governor of the state as a chosen leader of the people. He issues a courageous statement, declaring that "certain conditions exist in regard to national committee men that do not tend to create unity and call for a new selection in that office."  
This, too, comes in the first act.

(Continued from Page Two)  
Black Market in gasoline, the Office of Price Administration announced that after April 1 the five-gallon "E" coupon will be invalid at filling stations and they will be used only by those who buy gasoline at bulk plants or who have it delivered into storage tanks on their premises. Farmers buying most of their gasoline at filling stations have until April 1 to exchange at local boards their "E" coupons for "B" coupons, which will be accepted at filling stations. After March 15, "B" and "C" coupons in all cases must be endorsed before for gasoline delivered into storage tanks and held up at filling stations. However, to ease the task of endorsing these coupons, the consumer buying a large quantity of gasoline may endorse a whole strip or block of coupons with a single signature and address written across the required number of coupons given as a unit for his single purchase. For one gallon he continues to endorse one "E" coupon.  
The OPA has reduced the ceiling price on all enriched flour by five cents a hundred pounds. About 15 per cent of all family flour is enriched.  
Prices On Used Photo Equipment  
Reconditioned used photographic equipment, (still and movie cameras, projectors, lenses, range finders, etc.) must sell for no more than 75 per cent of the new article, the OPA rules. A 30-day guarantee of free repairs and replacements of defective parts must accompany this equipment. Other used equipment sold by a dealer must sell for no more than 13 1/3 per cent of the ceiling price of the new article and need not be guaranteed.  
Ammunition Saved For Farmers  
While it is possible that by fall there will be sufficient rifle and shotgun ammunition for game shooting, the WPA said that for the time being none can be spared from supplies need by farmers to protect crops and livestock. No ammunition will be made available for amusement purposes.  
Addressing Letters To Seamen  
Many letters to seamen are being improperly addressed, often in violation of national security rules, the War Shipping Administration reports. The address of the steamship company, a specific street address, or a place name of a foreign country should not be given. The proper form to be used is—Seaman's Name, Name of Ship, Care of Postmaster San Francisco, New York, or New Orleans, (depending on coast from which address is mailed). Return address of writer should appear in the upper left corner with the name of the Steamship Company in the lower left corner.  
150,000 Planes Since March, 1941  
Of the 150,000 planes produced by the United States since March, 1941, the U.S. has retained 122,000 for its own use and has shipped 28,000 to its Allies, the Foreign Economic Administration has announced.

### THE OLD JUDGE SAYS...

"Sorry Judge, my shipment of suspenders still hasn't come in. Some articles are mighty scarce these days. I don't get anywhere near as much as I could sell."  
"With the war going on, Frank, we've got to expect those things. It's true of luxuries just as it is of necessities. Take whiskey, for example. There's a real shortage in that. It's to be expected when you realize there hasn't been a drop of it distilled in this country since way back in October, 1942."

nounced. The Allies paid cash for almost 7,000 planes and received more than 21,000 under lend-lease. The British and Russians produce most of the planes they are using, but American Lend-Lease planes with British, Norwegian, Polish, Czech, and other allied pilots are playing a vital role against Germany.  
Promote Unrationed Foods  
To increase the consumption of unrationed foods, the Retail and Wholesale Food Distributing Association and the restaurant and hotel industry are conducting a campaign that will reach its peak during March and April. Foods to be specially emphasized are oranges, potatoes, eggs, breakfast cereals, enriched bread, soy flour and grits, macaroni, spaghetti, egg noodles, crackers, orange and grapefruit marmalade, peanut butter, and coffee.  
Round-Up  
Total U.S. war casualties as announced March 9 by OWI were 162,282 — including 37,553 dead, 97,228 wounded, 35,565 missing, and 31,936 prisoners of war.  
WPA announces that—the ban on two-trouser suits, trousers with pleats, vests with double-breasted suits, and other clothing production restrictions will not be eased... Restriction on manufacture of such items as baby rattles and teething rings from ultra-cellulose plastics have been removed. Phonograph record manufacturers in the second quarter of this year may use one-fourth as much shellac as they used in 1941, due to increased supplies.
