Ambition: Drafting  
Hobbies: Horseback riding and airplanes.  
Activities: Freshman year, band, basketball, baseball and track; Sophomore year, basketball, baseball, track and band; Junior year, basketball, baseball and band.  
—A.F.B.R.

### NEW UNITS STARTED IN H.E. CLASSES

Do you know the difference between Duesen Eyre and Chippendale furniture? Would you like to know where to use the different types of furniture—modern or eighteenth century? If those questions stump you, just drop in on the Homemaking 1 class; they are studying furniture and are able to give you complete information. A shopping trip to Detroit was the highlight for Home Ec. 2 and 3 girls last week. The girls bought bright cotton materials, and now they are making dresses and broomstick skirts.

Pam Nordway, Mary Mitchell, May Frezer and Marian Botard of the Home Ec 2 group made a very attractive window display, advertising the Spring Concert. It really strikes a gay note with a pretty May pole made of different colored crepe paper. —L.L.

### Juniors Entertain For Senior Class

Saturday night the graduates were guests of the Junior class. They were entertained in royal circus style, under the big-top. The ingenious juniors provided honest-to-goodness food, which was appreciated by the seniors. Milton Knight was the Barker who introduced the speakers—Mr. Ayres, Mr. Bates, Marion Rowland, Kenneth Way, and Lois Goers. Barbara Stever told of an embarrassing experience and several juniors took part in an old-time act, comic plots with hero, heroine and villain. The evening ended with dancing for everyone. —B.A.

### Sophomores Class Enjoys Picnic

Even though they had to have their picnic in the cafeteria instead of the park, the sophs and their guests had a grand time Friday night. The girls packed lunches, and after everyone had eaten, the boys had a game of volleyball.

After the game, the kids danced for the rest of the evening. And it wasn't only the kids who danced. The teachers were the belles of the ball, leaving the poor girls shellfish. —L.L.

Clean Up Plates  
Servicemen are encouraged to eat all they want, but the sergeant standing watch at the garbage can where the men scrape their trays after each meal is severe with those who haven't eaten all they took.

### F.H.S. SCORES 6-5 VICTORY OVER PLYMOUTH

The Farmington baseball squad won its third victory against one loss by defeating Plymouth 6-5. Bill Van Hulle started on the mound for Farmington and pitched 3 innings, allowing 3 hits. Dave Carley pitched the last 4 innings and is credited with the victory. F.H.S. made only 5 hits off Schultz, the Plymouth twirler, but they bunched 4 of them and 2 walks in the third inning for 5 of their 6 runs. —F.Q.

### 'TIS SAID ...

Something new—Bill Kahrl can jitterbug. You had better watch out, Bill, the girls will be napping you for a dance noon hours. Miss Bailey was the belle of the ball at the sophomore party last Friday night. Some of the kids are wondering who that new boy is we see around school so much. Well, folks, we're going to make an introduction; he is none other than Tom (Woody) Woodhouse, Barb Erickson's steady. Speaking in behalf of the senior class we want to say that we really had a good time at the Junior-Senior Banquet. Thank's, pals, for that swell feed. Say, Mary Taddeo was a heroine in two different ways Saturday night: she wrote the melodram and played the heroine. The other players acted with a finesse that threw the audience into stitches. We were very glad to see a couple of our old faculty friends back last week, Mr. and Mrs. George Johnson. Mr. Johnson, formerly Miss Isabel Steele, taught Latin, and Mr. Johnson taught Geometry at Farmington High School. We understand Mr. Johnson will be inducted into the Navy soon as a math instructor. At present the Johnsons are living in Ann Arbor. —Stella Lookin.

### — EDITORIAL —

A lot of "goodbyes" are being said at this time. On Saturday the Junior class said their official goodbye to the Seniors at a very well planned banquet, and on Friday at Senior Swing-Out the Seniors said their official goodbye to the Juniors and the rest of the school as they pass over the gavel.

High School graduation is the goal toward which we have worked for four years—or possibly twelve; but, as the time approaches, the jumps in big throats get bigger and bigger. It's been a grand four years filled with work, play, close friendships and fun. We have had the advantage of a small high school where our instructors have been our friends and we could really be a part of the school and not just one of hundreds passing through a classroom each day. The community, too, has been close to us, as has been shown by its interest in all school activities and by its splendid attendance at the school games and affairs.

To our class sponsors we say a very special thank you and goodbye: "You have been swell. You have encouraged us when we were right and stood back of us when we were wrong. Your friendship and understanding go with us."

To Mr. Bell we offer a parting salute. We shall miss his kindness and the teasing twinkle in his eye.

To next year's seniors we say—"You have a fine class, and we expect much of you, both in sports and in general achievement. Keep up your good work. We hope many of us will dance at your Prom." —Audrey Lathrup

Organic Matter  
Crop residues ordinarily left on the land, such as stalks of corn, cotton, and tobacco, and stubble of small grain and hay crops, are inadequate in overcoming losses in organic matter under the present cropping system, some agronomists say.

## Your Small appliances do a BIG job—

give them this special

## WARTIME CARE

Your electric servants are built for long, hard use—and they won't shirk their responsibilities if you treat them kindly! But remember, they must last for the duration.

**YOUR ELECTRIC IRON**—Keep bottom of iron clean. Avoid ironing over apppers, snaps, hooks and eyes. Don't go away to answer the doorbell, telephone, etc. and leave the iron turned on—even for a minute. Keep the cord away from a hot iron. Be sure the iron is cold before putting it away. Be careful not to drop your iron.

**YOUR TOASTER**—Never dip a toaster in water. Don't jab at it with a fork to remove a piece of toast. Brush off crumbs with a cloth or soft brush. (Many toasters have a removable bottom plate for cleaning out collected crumbs.)

**YOUR COFFEE MAKER**—Keep inside of coffee maker clean. (Never permit left-over coffee to stand in the coffee maker.) Clean and rinse filter cloth thoroughly after using. Keep filter cloth in cold water between usings.

**YOUR FOOD MIXER**—Always remove beaters or attachments immediately after using. Wash with warm water, rinse and dry. Clean body of mixer with soap and water, being careful not to get water into the motor. Follow manufacturer's directions as to oiling, operation, etc.

**YOUR WAFFLE IRON**—Wipe off grids with a dry cloth after use. Use a stiff brush to remove any particles that stick. Never wash the grids. Wipe any spilled batter from outside of waffle iron with a damp cloth. Never put the waffle iron in water.

The Detroit Edison Company
