

"Going To Town" in Bond Drive
That rural sections of the United States are "Going To Town" in the Fifth War Loan Drive is suggested by scattered early reports received by the Agriculture Section, War Finance Division, Treasury Department, in Carroll County, Georgia, agriculture's \$100,000

shares of the county quota was over-sold by \$80,000 on June 8, six days before the drive opened. In Alabama, where county farm quotas are broken down into "beats" roughly equivalent to townships in other states, several beats had surpassed their quotas. Gregory County, South Dakota, reached its goal two days before the drive officially opened. More than 10,000 farm machinery dealers in the U.S. have been enlisted as workers in the Fifth War Loan Drive.

Advices Buying Extra Eggs Now
If every housewife will buy an extra dozen eggs now and store them in her refrigerator or can solve a big storage problem now facing the War Food Administration. At present, WFA says, there are 1,400 carloads of eggs for which no cold storage space can

be found. By using their refrigerators, housewives can make it possible to save 25 million dollars. Egg production has begun to decline seasonally, and it will soon be possible to handle all supplies in the usual manner.

Clerical Jobs in Washington
More than 12,000 clerks, stenographers and clerk typists are needed immediately to fill vacancies in Washington, D.C., principally for the War and Navy Departments, the Civil Service Commission reports. Also, within the year between 8,000 and 10,000 additional vacancies must be filled. Positions will pay from \$1,762 to \$1,811 a year for the Federal work week of 48 hours. Local Post Offices and offices of the United States Employment Services can give persons information about these openings.

Used Cars Under Price Control
Beginning July 10, all used passenger cars come under price control, the Office of Price Administration has directed. All sellers—individual owners as well as dealers—come under the program. Ceilings will vary by model, body and make and will cover about 6,000 models manufactured from 1937 through 1942. There will be an "as is" and a "warranty" price for each model and body type. Ceilings will drop at the rate of four per cent of the "as is" price every six months. Permissible additions to ceiling prices are provided for extra equipment. Separate prices are given for each of three geographical regions. When a sale has been completed, the buyer and seller must fill out a transfer certificate and turn this in to the buyer's local War Price

and Rationing Board. Nearly four million motor vehicles went out of use in the United States in 1942 and 1943 and have not been replaced, the Federal Works Agency reports.

Prices on Certain Fruits
Highest average retail prices for the country as a whole that will result from ceiling prices established for certain fresh fruits have been announced by OPA. These prices per pound are: Italian plums, about 14 cents; tiliams, about 19 cents; sweet cherries, about 40 cents, except in California, Washington and Oregon, where the price will be about 35 cents; apricots, about 21 cents, except in California, Washington and Oregon, where the price will be about 16 1/2 cents.
