Housecleaning Task

Housecleaning Task
Arthur Cook, supervising enginer
of the Capitol at Washington, D. C.
has the responsibility of eleaning 430,
rooms, 14 acres of 6007, 787 windows, including 108 windows in the
dome, 17.376 square feet of skylights, 550 doorways, and 12 main
staircases. Even though it is algovcriment job, the repainting and refurnishing of the Capitol presents the
officials in charge with some prob-

Ling the Cake
Moisture in the air on a damp or
rainy day may make icings and
other sweets soft and sticky. To
offset this tendency, icings and other
sirup products need to be cooked
slightly longer on damp days.

Nancy Holmes SUGGESTS

Do you know how to put your but foot forward for company without suffering from kitchen fatigue? Nancy Holmes of the Best Foods kitchens suggests a few points to observe so you can remove the apron when the doorbell rings and greet your guests with a smile.

move the above the series with a series of the silver is highly polished, the orystal gleams, that all serving plees are handy. Plan food that is simple and easily served plan gerainsteam that will inspire one simple that the silver is simple and easily served in a stractive appetites.

One simple dish that Nancy suggests is Bouquet Appetizer Salad. It is made of only three futils with a delicious real mayonnaise variation but, as you see, it is so beautifully dressed up your guests will be impatient to begin.

A considerable part of the retina of every human eye is color blind, according to the Better Vision institute. The outer edge of the retina is totally color blind, perceiving only gray. Only in the center of the retina are all color sectoral full bland area only yellow and blue colors can be distinguished. This area on the normal human eye is reduced blind. Studies of many persons disclose Studies of many persons disclose

green blind.
Studies of many persons disclose that the three fields of color vision vary greatly both in area and shape not only from individual to individual, but also in the two eyes of the same person. Because of these differences color vision tack have here. same person. Because of these dif-ferences color vision tests have been suggested for the identification of people. Fingerprists may be muti-lated, but a person can not change this fields of color vision. The size and shape of the color fields of the retina can be accertained by an in-genious optical instrument known as a perimeter.

Bleeping Sickness
Research has shown that the barnyard fowl may act as a reservoir for the virus of horse sleeping sickness transmitted by mosquiloes and other biting insects, according to the department of animal pathology and hygiene of the University of Illinois.

THE OLD JUDGE SAYS...

"It sounds almost like a miracle, Judge... how did we ever do it?"
"American industry did it, Sally. When the Jape conquered the chief natural rubber producing centers of the world they thought they had dealt a death blow to our war effort. But, in less than two years, we are producing enough synthetic rubber in this country to supply all our military and essential civilian requirements.
"Our rubber experts knew how to make it but the most practical process at the time required hyge amounts of industrial alcohol ... far beyond the already over-

taxed capacity of our industrial alcohol plants. So, overnight, our country's beverage distillers stopped making whiskey and produced hundreds or millions of gallons of the vitally needed alcohol.

"As a matter of fact, Sally, a high government official said recently "... synthetis to find the mounts a head of where it could have been if alcohol had not been a variable for butadiese production."

"We were really fortunate, weren't we Judge, to have a beverage distilling industry in existence... able to help perform this great wartime miracle!"

LIGHTNING storms are often of a local character and difficult to forecast by usual methods. Yet they can cause a great deal of trouble for The Detroit Edison Company and its customers. For this reason, we need special devices to warn us of storms in advance. Such a device is this "calling card" for lightning.

THE U. S. WEATHER BUREAU

TELETYPE SERVICE direct from a weather forecasting serv-ice in California gives us special reports, supplementing the the U. S. Weather Bureau.

THE TROUBLE DISPATCHER,

FAST ACTION. Our men re-spond without delay when such a call is received. Edison serv-ice must be maintained, what-ever the weather.

THE DETROIT EDISON CO.
