WACS or WAVES, MARINES or SPARS, ARMY or NAVY NURSES, they deserve the praise of a thankful Nation. Here's to the ladies in uniform!

Ocean Analysis

The first comprehensive quantitative analysis of ocean water was made until 1924, and no significant efforts to extract any of its elements were made until 1924 when the Ethyl Gasoline corporation made an attempt to reclaim bromine from sea water because the demand for the element as an ingredient in anti-knock gasoline was overbalancing existing sources.

Nancy Holmes
SUGGESTS

BECAUSE bread is basic is no reason it should always appear on the table in the same fashion. Nancy Holmes of the Best Foods kitchens suggests you try the Standard Baking Powder Biscuits variations to add bread interest to your menus.

Standard Baking Powder Biscuits
2 cups sifted enriched flour 1/2 cup vitaminized margarine
4 teaspoons baking powder 1/2-3/4 cup milk
Sift flour, baking powder and salt together. Cut in margarine until consistency of coarse meal. Add milk. Stir until soft dough forms. Place on slightly floured board and knead lightly for 30 seconds. Roll 3/4 inch thick-cut with 2-inch biscuit cutter. Bake in hot oven (450° F.) 12 minutes. Yield: 12 biscuits.

Fruit Pinwheels
Roll biscuit dough 3/4 inch thick. Brush with melted margarine. Sprinkle with 1 cup chopped raisins, candied citron, orange peel and cherries. Roll up like jelly roll. Cut into 1/4 inch slices. Place on greased pan in 8x4 inch layer pan. Bake in hot oven (450° F.) 20-25 minutes. Yield: 6-8 pinwheels.

Tomato Doughnuts
Use biscuit recipe, substituting tomato juice for milk and adding 1 teaspoon grated onion to tomato juice. Roll 3/4 inch thick. Cut with doughnut cutter. Bake in hot oven (450° F.) 12-15 minutes. Yield: 12 doughnuts.

Biscuit Scones
Use biscuit recipe. Instead of 3/4 cup milk, use 3/4 cup milk and melt an egg. Roll dough into a rectangle 1/2 inch thick. Cut into triangles. Brush tops with remainder of egg diluted with water. Sprinkle with sugar. Bake in hot oven (450° F.) 15-20 minutes. Yield: 12-14 scones.

"LIKE TO SWAP NIGHT CLUBS, PAL?"

"Sorry, chum—no ringside seats. You sit in the mud, see?"

"You got a floor show of lizards and mosquitoes crawling over your face."

"You got a nice little 4-piece orchestra of Jap mortars, Zeros, machine guns, and your best friend screaming in the next booth."

"Come any time, pal. The show goes on all night. For a long time. There's never a cover charge. Not even for the flag they put over you when they carry you out."

We're all human.

We all like to go dancing or see a show or

buy an extra suit or dress occasionally. But this war still has a long way to go. There are still 75 million Japs who don't believe in surrendering.

So during this 6th War Loan, how about putting all that luxury money into something a little more permanent—an extra \$100 War Bond at least—to help get this thing really over and bring those boys of ours home?

It'll hurt. But not as much as the Jap bayonet in your neighbor's stomach. You get something back—in ten years—\$4 for every \$3 invested. He doesn't.
