Light Stockings
A new kind of sock is being applied
to the feet of the horse in the market.
After drying it gives the appearance
of silk stockings and is practically
impossible to distinguish from real silk hose.

Marble Walls
Rustic cottages in Cherokee
county, N. C., sometimes have
marble walls around them. Near
by are large deposits of the material.

Grass Socks
The Lapps wear socks made
of grass straws in the daytime,
claiming they are more protective
than fabrics and warm even when
wet. When sleeping, however, the
Lapps wear heavy wool socks.

Carry Bacteria
Experiments show that spoilage
of fruits and pickles, which cannot
otherwise be explained, is often due
to bacteria carried by the spices used
in the canning process.

NOVI NEWS

By Mrs. George Waite

The DeVere Mitchells and two
children spent Christmas with the
Jim Maies.

Mrs. Harry Watson has been on
the sick list.
Mrs. Arthur Hicks and Judy, and
Mr. and Mrs. Fred Huyler of De-
troit were Christmas guests at
the home of Mrs. Dora Hicks and
Joan.

Mr. and Mrs. Bob Casady and
son, Michael, have moved into the
Flynns house, to live until their
new home on Grand River is built.
The Glen Smiths of Decker are
spending the holidays with Mrs.
Smith's parents, the Fred Durfees.
The Harry Watsons and the Geo.
Hunts were in Detroit for Christ-
mas.

Mr. and Mrs. Fraser Staman en-
tertained Mr. and Mrs. Fred Stam-
an and daughter, Mrs. Leonard
Stuart of Farmington and Mr. and
Mrs. Milton Rickenbach and daugh-
ter of Detroit as their guests on
Christmas.

Mrs. Anna Hallahan is spending
some time with her daughters.
Mrs. Hadley Bachart and Mrs.
George Atkinson.

Sergeant Harvey Duntaville, who
is stationed in Texas, is home on
furlough over the holidays.

The W.C.S.C. was entertained at
the home of Mrs. A. MacCullum
on Wednesday, at a pot luck din-
ner. Exchange of gifts was a fea-
ture of the party.

Mrs. DeVere Mitchell, who had
an operation for appendicitis two
weeks ago at Sessions Hospital,
Northville, is still confined to the
hospital, and it will be another
week before she is able to return
home.

Mr. and Mrs. George Atkinson
and Mrs. Anna Hallahan and Mr.
and Mrs. Kenneth Atkinson of De-
troit were Christmas guests of
Mrs. Lena Atkinson and two daugh-
ters, at Port Huron.

The George Hines of Elletts-
ville Road entertained at their
home on Christmas Eve. Guests
were Mr. and Mrs. James Hines
and son of Plymouth, Mrs. Grace
Strader and son of Birmingham,
Mr. and Mrs. Jack O'Connor and
daughter of Hazel Park, Donald
Hines and wife of Utica, the Ray
Hines of Warren, Jerry Wonders
of Flint, P. Solmers of Jackson
Road, Jack Kramers of Inster-
ham, and the George Waites.

Miss Dora Tyson and Miss Mary
Jane Burgess will attend a New
Year's Eve party in Birmingham.
The Fred Durfees entertained
as their guests on Christmas Eve,
Donald Durfees, Mary Deland of
Detroit, and Captain Carbine, who
has spent two years in Brazil. The
Glen Smiths of Decker were also
guests.

The S. R. Marks and the How-
ard Thayers enjoyed their Christ-
mas at the Waite home on Sat-
urday.

The Earl Wards and family were
among a party of 24 who spent
Christmas at the J. W. Chandler
home.

The Harry Draytons spent
Christmas at the home Mrs. Dray-
ton's mother.

The Kaluzny entertained a party
of friends on Christmas Eve.
The Tony Rainey's entertained
relatives for Christmas, on Sun-
day.

Dr. and Mrs. W. S. Martin of
Ludington spent Christmas with
Mrs. Martin's mother, Mrs. LeRoy
Granow.

The Mothers' Club will serve
dinner on Thursday, January 4, to

the Board of Commerce, with Mrs.
Granow and Mrs. Lyons in
charge of the affair.

The Tony Olivich family spent
Christmas in Detroit.

If you don't think the kiddies in
Novi believe in Santa Claus, just
ask them, for they entertained
that respected gentleman at a
chicken dinner, followed by cake
and ice cream, at the school on
Friday. A program and exchange of
gifts followed.

Mrs. Alice Downey of Orchard
Lake and the Orlando Monroes
were entertained at the Al Whit-
ties on Monday.

Mrs. Dorothy Clark of Detroit
was the holiday week end guest
of Mrs. Helen Olivich.

Mrs. James Bailey spent Christ-
mas with her husband, Sgt. Bailey,
who is stationed at Cheyenne, Wyo-
ming.

On Christmas Eve the Granows
entertained the Jack Harndes,
the Charles Trickeys and the Dr.
Martins at a pinocle party. Re-
freshments were served at the
close of the evening.

Sgt. William Hansor arrived
home from Albus, Oklahoma Sun-
day to spend Christmas with his
wife and little son. They had
Christmas dinner on Monday with
the William Hansors, Sr. and Sgt.
Hansor left Tuesday evening to
return to his base.

The Charles Trickeys entertain-
ed L. Comm. Bluess, and Mr. and
Mrs. Walter Dartschladt and son
of Grose Pointe for Christmas
dinner.

The young people of the Baptist
and Methodist churches, including
40 voices, were carolling Christ-
mas Eve.

Miss Larce Trickey was the
Tuesday evening dinner guest of
Mrs. Thelma Miller.

The Tony Olivich family en-
tertained at a Christmas Eve party.
Guests were the John Klamers,
Fred Huylers and Mrs. Dora Hicks
and son. Gifts were exchanged
and refreshments were served.

Wood Sugar

In the interval between the two
world wars, Scholler of Germany
worked out an improvement in wood
distillation technique. The subdivi-
ded wood waste is packed in large,
tile-lined, steel cylinders that are
stationary and equipped with a liter
cone at the bottom. Successive
batches of hot dilute sulphuric acid
are introduced at the top of the
converter under pressure and per-
colate through the wood mass to the
bottom of the percolator where they
are successively drawn off in the
form of sugar solutions, cooled, neu-
tralized, fermented to alcohol, and
distilled. By carrying on this pro-
cess through a number of acid
batches, all of the cellulose and
hemicellulose content of the wood
can be converted to simple sugars
and recovered in fermentable form
with a very high yield.

Coconut Products

Coconuts supply the natives of
Central America with a highly nu-
tritive vegetable milk, important
proteins and oils. The young leaves
and shoots of the coconut tree are
recommended as a green vegetable.
The dried meat of the nut, copra,
is the source of coconut oils used
in making oleomargarines and other
butter substitutes, candies and con-
fections, as well as manufacturing
candles and imitation waxes, per-
fumes, glycerin, cosmetics, various
pharmaceuticals and an unknown
number of other uses. The pulp
of the coconut makes the feed for
livestock, particularly sheep, hogs,
poultry, and cattle.

Coal Bins Should Be

Made Within Easy Reach

In planning coal storage space,
the best practice is to group the
driveway, the coal chute, the coal
bin and the boiler as closely as pos-
sible.

Carrying charges from curb to bin
will be eliminated if the coal bin
can be placed at the side of the
house nearest the driveway. The bin
may be built as part of the base-
ment or it may be outside of the
foundation walls. A coal bin outside
of the basement offers the ad-
vantage of making additional space
available in the basement for recre-
ation, storage, hobbies and other
purposes. A coal bin in the base-
ment, however, is perfectly satisfac-
tory and can be made so that dust
cannot escape from it.

An average ton of bituminous coal
occupies approximately 40 cubic
feet. Allowing five feet for the aver-
age usable height for coal storage
in a typical basement, it is neces-
sary to provide floor space of eight
feet square to insure sufficient stor-
age area for an average season's
coal supply for the small house. Bins
of this size should be constructed
with an opening near the door. Coal
runs approximately 70 cubic feet
per ton.

Handsomeness Moth Plagues

Squash, Pumpkin Vines

Flitting about in many gardens,
often unnoticed, is a handsome moth
that spells trouble later for vines
of squash and pumpkin. Wasp-like
in appearance, with shining, fore-
wings, transparent hind wings, and
markings of red, copper, and black
on the forepart of its body, the
adult of the squash borer is laying
its eggs.

Late in July and August runners
on entire vines of all kinds of
squashes and pumpkins will wilt and
many of them will die later as a re-
sult of injury by the fleshy white
borers eating away the inside of the
stems. Plants not killed are stunted
and their yield is reduced.
Prevention is the best cure. Most
of the injury can be prevented by
spraying or dusting to kill the eggs,
or the eggs of the young borers,
before they get inside the stems.
Careful timing and thorough appli-
cation are the secret of success.

Rotenone dusts and sprays are ef-
fective against squash borer and
against the striped and spotted cu-
cumber beetles that also attack
squash and cucumbers.

Better Brass

Brass of better casting quality,
with improved welding and brazing
properties, has been produced by
the addition of 0.1 to 1 per cent of
boron.

Safe Speed

When you are working with a
tractor, select a safe ground speed
in keeping with the load and the field
conditions. Use care when working
on hillsides and never drive close
to the edge of a ditch or stream.
Keep tractor in gear when going
down grades and operate carefully
on steep inclines. An overloaded
drawbar can cause a tractor to tip
over backwards and hitting the
load high above the drawbar will
give the same results. When hitch-
ing the tractor to a stump or heavy
load always hitch to the drawbar
and ease into the load. Never take
up the slack with a jerk.

Wear the Pants

In Tibet the woman of the family
"wears the pants." In the event that
the husband does not furnish a com-
fortable enough livelihood it is quite
likely that the wife will divorce him
and drive him away.

Moderate Grazing
Moderately grazed pastures pro-
duce the most feed—more beef and
milk
