Replace Brick
 As soon as a brick has worked loose, it should be taken out entirely, cleaned off, and soaked in a pail of water. New mortar should be applied to bottom, sides and back, and the brick should be reset in place. A straight edge laid across the firm members will line up the loose brick.

Wrinkle Out
 When wool dresses or coats "rest" on hangers, fasten them so they hang straight... not twisted or wrinkled. Give them elbowroom and some of the wrinkles will drop out.

... Timely items of interest and value... helpful suggestions about cooking, lighting and appliance use.

WORKING 'EM 'HOT.' To give you uninterrupted electric service, our linemen often work on "hot" high-voltage lines—lines with electricity flowing through the wires. Specially insulated tools and rubber protective equipment have been designed for this work. No precaution or safeguard is overlooked.

LAMP BULBS EXCHANGED. Don't rob one lamp socket to fill another. There's no good reason for being short of lamp bulbs in your home. Gather up your burned-out lamps and exchange them for new lamps at any Edison office. There is no charge. You may exchange smaller sizes for larger—or larger for smaller—which ever you need. (Please bring your latest electric bill for identification when exchanging lamps.)
