Keep Cottage Safe Floors, stairs and outside walks of a summer cottage should be kept as safe as at home. Flashlights should be available for guidance on unfa-miliar stairs at night. Wine Jelly

Wine Jelly Tart wine jelly sauce adds deh-clous flavor and delightful piquancy to rich prune pudding.

Design Shows Kept Time Prints can seldom be successfully. Ancient man kept time by meas-isign usually shows through. and other objects.

Hasten Blooming Blooming of chrysanthemums can be hastened by limiting the early morning light so ten hours for the ıms can morning light so ten hours for day is maximum, or it can be layed by adding artificial light.

Dress Patterns Use those old dress patterns. Old tissue dress patterns are fine for polishing mirrors and windows.

A POUND OF CURE ... In time of war there is often nc. cure for a burned-out motor: it cannot be replaced! To prevent overheating and extra wear on the motors on your electric appliances, exercise a drop or two of pre-vention. Oil the motor on your washer, ironer, etc., regularly, according to the manufacturer's directions, Do not oil "sealed-in" refrigerator units Saving electricity saves coal, transport and manpower

WHO PAYS? ... We are sometimes asked, "Since TVA pays no taxes to the community, comparable to those paid by a privately-financed electric power company, paid by a privately-financed electric power company, how is the consequent loss of tax revenue made up by the community?" The answer -as many communi-ties have discovered-is that the loss in tax revenue must often be made up by increased town or city taxes. In the case of the TVA, much of the expense is borne by taxpayers all over the United States.

**(RIDAY FISH** ... Here is an easy-to-prepare dish recom-mended by our Home Service Department:

Wasting electricity is we sting badly needea coal

ROPE STRETCHER . Before the war, we replaced Rore Sherichar , Beite and war But now the supply of new rope has been cut off, and rope must be made to last as long as possible. To insure safety our Research Department has devised methods of compar-Accessed to Leparament and devised methods of compar-ing the strengths and lives of ropes made from sub-stitute fibers, and tests that indicate the exact condition of used rope.
