## ONE FOR ALL

Mr. Jones lives in a trailer. Mr. Smith owns a cottage. Mr. Clark dwells in a mansion. But Detroit Edison furnishes all of them with exactly the same dependable electric service. Nobody can buy an "exclusive" grade, for all are provided with the same high quality—the best we can provide. And while most other living costs have been going up, residential electricity hasn't advanced a penny in price since the war began.

Don't waste electricity! Conserving it saves coal!

**LENTEN DISH**... Our Home Service Department suggests another dish for Lent:

Baked Oysters with Spaghetti

1/2 pound spaghetti	1/2 cup melted fat
1 pint oysters	1 1/2 cups milk
Salt and pepper	2 tbs. flour
1 cup bread crumbs	2 tbs. butter or other fat

Cook spaghetti as directed on package. Scald the oysters in their own liquor, reserving the liquor. Oil a baking dish, put in a layer of the spaghetti and then a layer of the oysters, season with salt and pepper, and repeat the layers until all the oysters and spaghetti are used, finishing with a layer of spaghetti. To the liquor from the oysters, add enough milk to make a pint, reserving a small quantity to mix with the flour. Scald the remainder, add the scalded milk to the moistened flour, stir well and simmer 20 minutes. Add the melted fat and pour over the layers in the dish. Top with bread crumbs mixed with melted fat, and bake in a hot oven (400-450° F.) just long enough to brown the crumbs, about ten minutes.

## SERVANTS' ENTRANCE

The electric outlet on your wall is a "servants' entrance," providing many extra helping hands that save you time and lighten household whenever you plug in your electric appliances. But you can't make efficient use of all the servants if there are not enough outlets in your home. Remember the extra demands of postwar electrical living when you plan to remodel or build a new home.

Saving electricity saves coal, transport and manpower

## KITCHEN CRAFT

To delay the rusting of pans, grease all new pans and put them in a warm oven before using.
