THE OLD JUDGE SAYS...

"When you think of the sacrifices our fighting men are making in this war, it's hard to figure out how we'll ever repay them, isn't it, Judge?"

"Yes, it really is, Tom. There are only certain things we can do. Such as... write them cheerful letters often. Send them favorite gifts from time to time. Work harder than ever to provide them with everything they need to finish their job quickly. Buy more and more War Bonds... especially during the current drive... to

pay for the ammunition and fighting equipment they must have."

"All that still seems kind of small compared with what they're doing for us, Judge."

"True, but I'm sure that all we older folks back home can do, Tom. Except one more thing. And that is to be sure our fighting men come home to the same kind of country they left behind. The kind of country their letters tell us they want. Nothing changed that they don't want changed while they're away and unable to express their wishes."

Timely items of interest and value... helpful suggestions about cooking, lighting and appliance use.

WASHER WISDOM... Don't overload your washing machine. Cramping too many clothes into the washer is frequently the cause of breakdowns. The normal load for the average washer is six to nine pounds. Do not exceed the amount recommended by the manufacturer of YOUR machine. This table will help you estimate weight loads:

Sheet (twin size)	1 pound
Sheet (full size)	1 1/4 pounds
Pillowcases	3 to 4 pounds
Tablecloth (dinner)	1 pound
Tablecloths (luncheon)	2 to 4 pounds
Hand towels	6 to 8 pounds
Bath towels	2 or 3 to a pound
Men's shirts	2 to a pound
Women's dresses	2 or 3 to a pound

Wasting electricity wastes badly needed coal

MEAT STRETCHER... This recipe from our Home Service Department makes a tempting meal from left-over meats:

Meat Fritters	
1 cup finely chopped cold meat—beef, lamb, chicken, etc.	1 cup flour
Salt, pepper and a little onion juice	2 tsp. baking powder
1 tsp. chopped parsley	1 egg
	2 cups milk
	2 tbsps. fat

Season meat to taste, combine with onion juice and parsley. Make a batter of flour, baking powder, egg and milk, add seasoned meat and drop by tablespoons into shallow frying pan in which fat has been heated. Cook to a golden brown on both sides and drain thoroughly. Serve hot with or without a sauce or gravy. Serves four.

HOW MUCH IS A POUND OF COAL? A pound of coal doesn't look like much. But Detroit has learned how to get much from little. In Detroit Edison power plants engineers have performed miracles of squeezing more and more power from less and less coal. It is now possible (roughly speaking) to get as much usable energy from one pound of coal as a team of horses can deliver in an hour. And, through refinements in operation and improvements in plant design, the cost of electricity has been reduced steadily. Today the average residential rate for electricity is only half what it was in 1921.

CLEANING CRAFT... Wax on window sills, Venetian blinds, work surfaces and kitchen cabinets protects finishes and makes cleaning simpler.
