**Energy Foods**  
The housewife should not feel  
apologetic if she serves dried pea  
or bean dishes several times a  
week because these legumes rate  
nearest lean meat, eggs, milk and  
cheese as body builders, declare  
home demonstration agents. And  
the edible soybean, which can be  
purchased either in the form of  
hour, canned, or as a dried bean,  
rates highly nutritionally in the  
family of legumes. Dried peas and  
beans are inexpensive energy foods  
and contain important minerals.
