FOOD Yeast Processing
Food yeast Processing
Food yeast bas a protein value
twice that of meat and, more important still, is exceedingly rich in B
complex vitamins. It costs as littile as 10 cents a pound, and can
be easily manufactured, shipped,
stored and use and the stored and use
for a manufacturing methods were developed in England in
1940. It is made from molasses and
ammonia, and will soon be in full
production in both this country and
England. The process, a continuous
or, consists of planting 125 pounds
of this new yeast strain in a vat coninning 7,000 gallons of water, a ton
and a half of molasses and some ammonia. The yeast feeds on the sugar in the molasses, and the ammonia
provides the nitrogen that by yeast
converts into protein. Hormandly are
sulting in alcohol, but in the aforementioned manufacturing process,
the mixture is stirred by 1,000 cubicfeet of air per minute, which prevent
errementation. The yeast multiplies

the mixture is stirred by 1,000 cubic feet of air per minute, which prevent fermentation. The yeast multiplies itself about 16 times in weight in 12 hours and emerges from the vat as a ton of creamy mass which is then dried and ready for use.

Good Jam
One secret in making good jam is
to use a wide shallow kettle and to
cook in small batches. Speedy
jam making helps hold the bright
color and flavor of the berries, and
cuts down on loss of vitamin C.

Let Hayon Dry
All rayon garments should be thoroughly dry before being worn. As
has been said before, rayon is weeker when it is damp; therefore, it
will give quickly if worn when damp.
Perhaps you have been conscious of
Perhaps you have been conscious of
hose: dry of lessi de before
wearing. The same precaution applies to all rayon garments

Measure Ingredients
Measure ingredients accurately—
you'll waste less and have better
cooked fools besides. Cook potatoes
with skins on and other vegetables
in as little water as possible.

Tire Failures
In normal times there are 20 per cent more tire failures in summer than in winter.

YA-DEed articles may be dry cleaned as many times as necessary and the guarantee still holds good. Ask for YA-DE and get 5 years guaranteed moth protection.

YADE 5 YEAR GUARANTEED MOTHPROOF

Dickerson Hardware

The electric life is the only life!"

"Twe been a dealer in electric appliances for fifteen years, with a close view of the amazing progress made toward providing the 'electric life.' I don't believe many people fully realize yet that the 'electric life' is practical right now! They aren't familiar with the variety of labor-saving devices that appliance manufacturers have developed... have proved in use ... and will again make available at reasonable prices. Quite a while ago only those with better incomes could afford to use electric appliances. Today there are few people who cad afford not to use electric appliances, because of the savings in time, labor and developed they are they provide. I'm now ellige my customers.

and drudgery that they provide. I'm now telling my customers about all the modern appliances for modern living-automatic washers, ironers, garbage disposal units, ranges, dishwashers, water heaters, television, home freezers, automatic blankets, air water heaters, television, home freezers, automatic blankets, air conditioners and so on. I'm asking my customers to review their ways of doing things... to recognize the old-fashioned ways they cling to ... to find out the cost of doing things the modern way. I believe that in almost every case they'll decide that the old-fashioned way is the wasteful way. They'll all be turning on the electric life when appliances are again available."
