Shaking Hands
Paradoxically, the handshake is hased on mutual distrust. In ancestral days, men upon meeting would circle slowly around one another-with hands on daggers. If there were to be parley, they would simultaneously set their daggers down and seize the other man's hand before he could snatch his weapon again. Today the handshake is a sign of friendliness.

Although highly skilled workers in iron, the Romans built their racing charint bodies of wood to secure the lightness necessary to the race course and still provide strength to withstand the shocks of a sport as decreely combative as modern war
