

new variety
For pale blue add a very little Prussian blue to white. For a deeper blue add more of the same color. For a gray-blue add Prussian blue and lampblack, or for a livelier color, Prussian blue and some orange chrome, to white.

Planes Lay Wire
Army planes now can lay telephone wire. In a recent test a twin-engine transport plane laid 16 miles of army telephone wire in a little more than six minutes over rough wooded slopes with elevations between 1,500 and 5,000 feet.

Sugarless Frosting
For sugarless frosting place two egg whites, one-half cup corn syrup and one-half cup of molasses in double boiler-top over boiling water. Cook, beating continuously for seven to nine minutes, or until frosting peaks. It fills and frosts two 8-inch layers.

Selective Breeding
Selective breeding has reduced undesirable characteristics of sheep, such as wool blindness and excessive skin folds that detract from the value of the animals for both meat and wool.

Hospitals in Urgent Need Of More Help
More than 130,000 professional workers, in addition to more trained volunteer nurses aides, are needed in the Nation's civilian hospitals immediately. The Office of War Information reports at the request of Government agencies that are inaugurating a campaign to recruit the needed personnel.

The Public Health Service of the Federal Security Agency, The War Manpower Commission and the Veterans Administration are sponsoring the recruiting drive in cooperation with the American Red Cross, the National Nursing Council for War Service, and the American Hospital Association.

Urgently needed at once, according to the three Government sponsors, are 30,000 graduate nurses for general, tubercular and psychiatric hospitals — 8,000 graduate nurses for public health nursing — 2,000 graduate nurses for Veterans Administration Hospitals (this is in addition to 3,000 more who will be needed for January 1947) and 90,000 non-nursing hospital workers. Besides these paid workers, 10,000 already trained, volunteer nurses aides are needed to augment the number now giving many hours of service to the hospitals, it was stated.

It is expected that within a few months large numbers of nurses released by the military services and closed war plants may transfer their services to hospitals, but no appreciable increase in the number of women taking such positions is expected immediately.

ly. Of the 13,000 industrial nurses many are expected to remain in the industrial field. Of the Army and Navy nurses released, it is expected that many will take well deserved rests before they take up new duties in civilian hospitals or as private nurses. The first class of cadet nurses, now in training, will not become graduate nurses until next July.

In view of this situation, OWI was informed, the appeal during the recruiting drive is made to professional nurses who have retired or who are doing other work — nurses who could accept more essential nursing positions, and to students. It was stated that in 1,300 hospitals in the country with schools of nursing, student nurses during 1944 carried 80 per cent of the nursing load. The need for additional nurses, the sponsors of the drive add, is due to the patient load, which is heavier today than at any time since 1940, as well as to the withdrawal in the past of nurses for the armed services and war plants.

New Ceiling Price List For Used Cars
A new list of dollar-and-cent ceiling prices for used passenger automobiles — revised to reflect the four per cent reduction that became effective July 1 — will be available for general distribution to dealers and Local War Prices and Rationing boards shortly, according to OPA. The new prices are contained in Amendment 10 to Maximum Price Regulation 540—Maximum Prices For Used Passenger Automobiles—which bears the issue date of September 6, 1945.

Under the regulation, OPA explains, ceiling prices for used passenger automobiles now are automatically reduced four per cent every six months to reflect depreciation and increasing age of cars, the first reduction having become effective July 1, 1945.

OPA Tightens Tenant Eviction Regulations
In a move to protect tenants from being forced from their homes in crowded areas where they cannot find other places for rent within their price range, Chester Bowles, Administrator of OPA, announced that the agency is tightening its eviction rules. Beginning September 15, Area Rent Directors may require a minimum of six months before a purchaser may evict a tenant in order to occupy the house himself. Formerly the waiting period in all areas was three months.

"With hundreds of thousands of tenants facing temporary unemployment during the change to peacetime production, this is no time to have furniture piled in the street," Mr. Bowles said. "We are compelled to tighten up on evictions because they have been taking place at an alarming rate, a situation even more serious in this transition period than it was during the war. In the first six months of this year, a total of 515,000 petitions for eviction were received at Local Area Rent Offices, last year, nearly a million families received eviction notices."

Mr. Bowles said that, as rapidly as pressures on rent ceilings in particular areas relax, controls will be removed from one area after another. Controls were removed from nine Defense Rental Areas September 1. He made clear, however, that in all areas where pressure on rent ceilings remains, controls will continue in effect.

HAROLD HALL NEW DISTRICT EDISON MANAGER

Harold J. Hall, formerly staff engineer of the department, will become district commercial manager at Birmingham, Angus McLay, vice-president and sales manager of The Detroit Edison Company, has announced. He succeeds Ralph W. Bricker, who has been transferred to the Monroe office of the company.

Mr. Hall was born in Jackson, Michigan, and graduated from Rensselaer Polytechnic Institute in 1914. He began working for the company in 1915 as an apprentice experimental engineer. During World War I, from 1917 to 1919, he was in the military service. Mr. Hall has been employed as technical engineer in the production department and, since 1921, as sales engineer in the sales department. He has had charge of the company's service to many of the largest customers, including work in new locations for companies moving into this area.

LOCALS

Mr. and Mrs. A. L. Pass have returned from an extended motor trip through the eastern part of United States and Canada.

Miss Ruth Schroeder has started her first year of teaching at Redford Union School. She formerly taught in Jackson and Ionia.

Rev. Douglas Parker and family of Whitmore Lake were Sunday evening guests of his parents, Mr. and Mrs. J. D. Parker and family. Mr. and Mrs. Glen Auten and Mrs. Douglas Smith were Sunday guests of Mr. and Mrs. Ralph Auten.

Mrs. Amos Otis, who has been quite ill at her home, is reported much improved. Mr. and Mrs. Fred Becker and Mr. and Mrs. William Spalter attended.

Migraine May Be A Symptom of Liver Trouble

By Courtesy of SMITH-BRADLEY DRUG CO.
Unless a doctor is consulted the people who suffer from migraine headaches receive little relief except from sedatives. The cause of these severe attacks has never been definitely established.
Research, however, has resulted in the belief that there is a relation between a sluggish liver and migraine attacks.
"A physician's diagnosis and treatment will assist in clearing up a condition of liver or gall inactivity. Relief from migraine headaches frequently follow."
Therefore medication is important and must be the purest and best obtainable. Patronize a capable and trusted pharmacist.

tended the funeral of their cousin, Mrs. William Gow in Plymouth Saturday.

Mr. and Mrs. John McClelland and son, Mr. and Mrs. John Westfall and Mr. Fred Westfall of Detroit were Sunday evening guests of Mr. and Mrs. Harold Westfall.

Antifriction Bearings
The finest steel in the world is used in antifriction ball and roller bearings which go into planes, tanks and ships, and the broken edge of one of these bearings will cut glass with ease.

Milk for Farm
Every farm family should have at least two good milk cows to insure an adequate supply of milk and dairy products throughout the year.

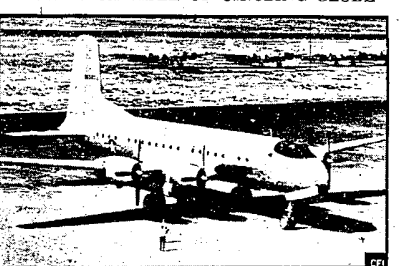

With most home canners, tomatoes top the vegetable list because they are easily and safely canned in a boiling-water-bath canner. The canned tomatoes store up vitamins A and C for winter and they may be used many ways for variety in meals.

Substitute Fats
Home economists say that one fat may be substituted for another — one cup of lard or oils for one cup of butter or margarine. When fat is unsalted fats, increase the salt in the recipe.

Rail Revenue
The average revenue received by the railroads for carrying a passenger one mile in 1944, including commutation, was 1.87 cents compared with 1.88 cents in 1943.

Pictorial News Review

PLANE CAPABLE OF CIRCLING GLOBE

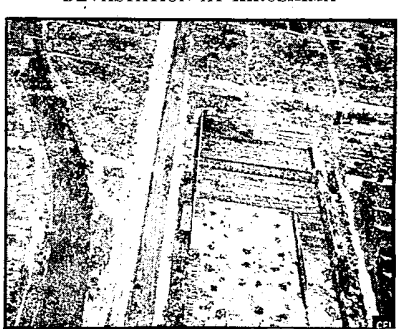

LOS ANGELES, CALIF. — First picture of the Douglas C-74, Globemaster, capable of circling the earth with only two stops. It is shown just before its takeoff on a successful test flight. Weighs 13 tons, 173 feet wingspread, speed 300 MPH and can travel 7,500 miles without refueling.

DROUGHT IN AVELLA, PA.

PITTSBURGH, PA. — Soundphoto — As the water-laden trucks arrive from the Citizens Water Company of Washington, Pa., 16 miles away, the townspeople of Avella rush to the streets with pans, buckets and bottles of all descriptions. From the tanker to the doddling old folks, they tote the containers seeking the precious liquid. The lives of 600 people are endangered by the lack of water.

DEVASTATION AT HIROSHIMA

SAN FRANCISCO, CALIF. — Soundphoto — Hiroshima factory, gutted, blasted by atomic bomb, is a mass of melted, twisted steel cylinders surrounded by ashes and rubble of devastated area.

TRUMAN TALKS TO LEADERS OF CONGRESS

WASHINGTON, D.C. — 79th Congress reconvened last week. President Truman talks to Congressional leaders before re-opening of Congress. Photo shows left to right: Speaker Sam Rayburn, Texas, President Harry S. Truman, Senator Alben Barkley, and Senator Kenneth McKellar, Tennessee, as they met at the White House.
