"I'm making homes out of houses"
It's a pleasure for a dealer to furnish a house with an all-electric kitchen—for it makes the house into a home. The electric kitchen cuts down the housewife's time in the kitchen... and gives a thrill to the work she does there. The electric range gives uniform results... provides automatic operation, cutting down the amount of attention necessary. Electric cookery is the modern way... convenient... clean... reliable. People have come to feel about it the way they do about electric refrigeration—that it is the only way. The electric dishwasher, too, has proved itself in thousands of homes as a time and labor saver. I've sold many and never had one returned. They normally save the housewife a total of about a day's work every month.
People are not so familiar with the operation of the garbage disposal unit in the sink drain. The convenience of throwing waste right into the sink and washing it away cannot be appreciated until used. And the modern housewife also gets the multiple assistance of all the smaller electric helpers—mixer, juicer, percolator, toaster and others. I can't think of any investment that goes farther toward making a house a real home than an electric kitchen.
ADVANTAGES OF THE ELECTRIC RANGE
Clean, controlled heat expresses quickly the advantages of an electric range. The surface burners give a general heat units from "simmer" to "high" that provide just the right heat for whatever dish is being cooked. The heat comes directly to the bottom of the utensil as clean as sunlight. In the oven, a control regulates the heat to an exact temperature and maintains it. An electric timer can be provided to turn off the current at a preset time, thus freeing the housewife forget all about the oven. The broiler grills meats to a perfect turn, and the deep well cooker is ideal for long, slow cooking, such as soups, cereals or stews.
HURN ON THE ELECTRIC LIFE
Electric kitchen equipment is not generally available for sale now. Some is being manufactured and distributed. It will be to your advantage to have your name on your electrical dealer's list, so that you will be able to get it at the earliest possible time.
The DETROIT EDISON Co.
See your dealer for information. He will be glad to help you decide upon the models that will fit your needs.
