Why Opal is Unlucky
Some stone cutters are alleged to
have started the superstition about
opals being unlucky. These black
and white opals from Australia were
hard to cut, so the stone cutters
started the superstition it is said.

"We get our hot water ON TAP"

"For years we have been accustomed to the venience of electricity in our home. Our allelectric kitchen has given me many extra hours of enjoyment with Bobby, and time for just plain relaxation too. Now we have an automatic electric ater heater, and do we enjoy it! Gone forever are the slow ways of the past, heating water for dishes, baths and washes. Today with our water leater John has plenty of hot water on tap for his norning shave and shower. I have plenty of hot vater at all times for the household chores, and young Bobby doesn't raise half the fuss about his bath now. Yes, our life is more complete and more enjoyable now that we get our hot water on tap.

Water heaters are not generally available for sale now. A few are being manufac-nared and distributed. It will be to your advantage to have your name of your electrical dealer's list, so that you will be able to get one at the earliest possible time.

to enjoy the many facilities for relaxation and com-tort that he has had built in, is the all-electric home. The time-, health- and labor-saving advantages of electricity say, "Turn on the electric life."
