

Logic Games Make Math Fun, Exciting

ANN ARBOR--At some point in American education's past, the myth developed that mathematics is sheer drudgery--all rules, memory, and frustration. Suddenly, WFF 'n Proof, Mathematics can be fun! Not a secret code for all the right answers, or an incubation to summon great knowledge, WFF 'n Proof is the trade name of a series of logic games invented by Prof. Layman Allen of the University of Michigan Law School. Watching a group of students play Prof. Allen's games convinces one that they provide exciting opportunities for creativity and personal involvement in learning.

Each weekend a number of junior high school students in Ann Arbor take part in a few hours of game playing with Prof. Allen. They do not do so to receive credits, or because their teachers tell them

Healthy Tan Preferred Over Mink

This is the time of the year when a healthy, golden sun-tan becomes more important to the average person than a mink coat or a new automobile. Why go through summer with a ghostly pallor when you can acquire a handsome suntan quickly and in an exceedingly cool, pleasant and relaxing way? The sun-tanner, shown here with actress Karen Jensen, makes sunbathing a delightful experience on even the hottest days. Nothing quite like it if you want to relax and pamper your mind and body in the luxury of a sun-lounger sunbath. Here's how it works: You add an inch or two of water on the bottom. This, together with the white paint, reflects the sun's rays to speed that perfect, all-over tan evenly and still keeps your skin moist and cool.

EVEN the most devoted sun worshipers find this far easier and much more pleasant than reclining on a hot chaise longue. If you happen to be in the resort business, here's something that will be popular with your guests.

The entire project is made of inexpensive exterior plywood and given two coats of white marine paint. There are holes on each side for a cool drink and an ash tray.

The whole project is easily built when you use the full-size pattern. You need only trace the pattern on wood, then saw out the parts and put them together.

YOU'LL HAVE no difficulty in completing it in one evening. Once completed and in use, you'll look absolutely great all summer long.

To obtain the full-size sun-tanner pattern number 425, send \$1 (add 25c per pattern for airmail delivery) by currency, check or money order to: Steve Ellington, Lansing State Journal Pattern Dept., P.O. Box 2385, Van Nuys, Calif. 91409.
