"Six rooms, bath and kitchen are not the biggest home in the world, but ours is really one of the most livable homes I have ever seen. Take, for instance, our all-electric kitchen-it really is a Shangri-Ia. No longer does Mary dread preparing meals and cleaning up afterwards. The electric refrigerator permits purchasing in larger, more economical quantities. The electric range, with timer and temperature control, allows Mary to prepare the meals with a minimum of effort . . in fact, meals can be started while she is downtown shopping. The garbage disposal unit and dishwasher make the cleanup job far easier, and the conveniences all add up to more time to enjoy our home. Yes, that kitchen is a Shangri-la."

Electric kitchen equipment is not generally available for sale now. Some is being manufactured and distributed. It will be your advantage to have your parme on your electrical dealer's its, so that you will be able to get it at the earliest possible time.

After scraping, place plates in wire rack that holds them to
