

Gas-Testing Apparatus Developed
A sensitive "nose" which literally sniffs out gas fumes in copper wire annealing furnaces has been developed by a large electric equipment manufacturer. This gas analyzer has already saved wire manufacturers thousands of dollars, for it ensures safe processing of copper materials without the former danger of oxidation or brittleness affecting the quality of the wire.

Care of Hands When Working
Protect your hands with gloves while you putter in the garden. And when you come indoors, scrub them thoroughly with soap, hot water and a stiff brush. Use hand lotion to replace the natural oils that are washed out of your skin. Don't fret over those fruit and vegetable stains on your hands after canning. They'll come off with lemon juice or a bit of cuticle remover.

Service Notes

T/Sgt. Edward W. Smith, son of Mrs. Olive Smith, has just received his discharge at the AAF Separation Base, Greensboro, North Carolina, following almost four years' service with the Army Air Forces. An employee of the Ford Motor Company of Dearborn, Michigan, for two years prior to entering the Army, Smith was inducted on January 12, 1942, at Fort Custer, Michigan. Upon completion of basic training he served as a clerk at numerous bases until September 1, 1943. At that time he was assigned to the AAF Base Unit, Winston-Salem, N.C., the AAF's agency for the selection of aircraft accidents and promotion of safe flying. He served in the Safety Education Division of the safety organization until the time of his discharge.

Pvt. Donald O. Larson, 12524 Orchard Lake Road, has been recently discharged from the Army at Fort Knox, Kentucky, and has returned home to his wife, Dawn, and two children.

Pfc. Ted Johnston of 18375 Mulburn, is enroute home from the Far East Air Forces 22nd Replacement Depot. He was overseas 30 months with the 76th Chemical Company of the Far East Air Forces. He wears the Asiatic-Pacific Ribbon with three campaign stars and the Philippine Liberation Ribbon with one campaign star.

Sergeant William Pauline, who has spent many months in Alaska, and also in the South Pacific, has returned home with his discharge. Bill is the son of Mr. and Mrs. William Pauline of Grand River Avenue.

Corporal Raymond E. Winters of 21432 Jefferson Street, has received his honorable discharge from Fort Lewis, Washington.

27 November, 1945
Dear Sir:
I want to thank you for sending me the home town paper every week. It's wonderful to come home after a hard day of classes to sit down and read about folks back home.
My brother, Bill, who used to work for your firm, was here to see me two weeks ago. He is looking fine and says he'll see you all when he comes home on a 30 day leave starting about December 12. It will be wonderful to be home again together. I also will be home on a 7-day leave before reporting to my new station.
In two days I will have completed my six-week hospital training. The Navy is giving me. It has been a very interesting course and I'm all set to get started at my new hospital.
Thanks once again for sending the paper.
As always,
Lily I. Mitchell, MA 2/c.

Russell T. Pagel, MMS 2/c, USNR, husband of Mrs. Virginia W. Pagel of 24163 Nine Mile Road, is on his way home. He is coming back to the States aboard the U.S.S. Fairisle.

First Lieutenant James M. Tager, son of Mr. and Mrs. A. Clifford Tager, is back in the States, having arrived at Hampton Field, California. He is awaiting transportation home.

Irvin W. Steffens is at his home, 21619 Middlebelt, having been honorably discharged from service in the United States Navy.

Pfc. A. J. Wilson, stationed at Baer Field, Fort Wayne, Indiana, has been honorably discharged from the Army Air Forces. He is the son of Mr. and Mrs. H. C. Wilson, 23018 Lakeway, Farmington, and was employed at Acme Bath Bearing before entering service. He was overseas for six months in the European Theatre of Operations, serving as a clerk.

Sgt. Carl Rogerson has returned to home here, having been discharged from the Army after serving overseas in the European Theatre of Operations.

Aviation Cadet Robert E. Godfrey is home with his discharge.

Staff Sgt. George Esch has returned home from Belgium with his discharge. Sgt. Esch has been in service five years.

Forty members and guests of Farmington Exchange Club sat down together for the noon luncheon last Wednesday. C. C. Gooden introduced the speaker, Major Malcolm Denny of the British Army who has spent fifteen years in India. He spoke on "Royal India," dealing with the wealthy class in the country.

Members of the Club attended the Universalist Church on Thursday evening and enjoyed a fine talk by Dr. Frank D. Adams. Emory Hutton in his new role of "Town Tattler" briefly reported at Wednesday's meeting, mentioning the fact that Farmington is now 120 years old.

An attendance contest got under way last week, under the direction of Howard Thayer, chairman of the attendance committee. Earl Vivier, and Dr. John Vos. Four teams will carry on the contest, running through April 1, and the losing teams will "pay the bill."

Next week, December 12, will be the Football Honor Luncheon and High School Coach Robert Hutten will speak, all members of the squad being guests of the Club. Dr. Z. R. Aschenbrenner is chairman of the program for this meeting.

For Diabetics Only
Saccharine is not a sugar but a coal-tar product. It does not possess any nutritive properties but is extremely sweet in flavor. Saccharine is recommended as a sweetener of foods for diabetic patients, who are deprived of sugars in their diets yet crave something sweet.

Preserve Apples
Drop sliced apples in salt water and you will find you can let them stand for some time without discoloring.

The Farmington Kiwanians, their wives and guests were privileged last week to hear one of the best programs of the year, when Austin Grant spoke on "The New Frontiers of America." It is too bad that every resident of Farmington did not have the opportunity to hear this talk, for laudably it would awaken them to the demands of the day, and prepare them for a more useful future.

The glamour of being read has been taken away, Mr. Grant said, and before we can achieve greatness and goodness we must return to the fundamentals of the religion and faith our forefathers knew, and without which they would never have established this country. We must have the same faith if we are to prosper.

Mr. Grant was introduced by program chairman Ray Scholer. Preceding the talk Mrs. Ruth Hick Hammond and the Hammondettes entertained with several musical selections. They sang their theme song, "I'm for Victory." "Always," "By the Light of the Silvery Moon," "Dreidling of a White Christmas," "Walking in a Winter Wonderland," and closed with "Lullaby." The music added much to the program.

At the close of the evening Rev. Carl Schultz showed a three-minute reel entitled "The Lord is My Shepherd," a most appropriate close to the meeting.

On Wednesday evening of this week the Kiwanians will entertain members and coaches of the Farmington High School football squad at a banquet, an annual affair. Keen Leomis is in charge of arrangements.

The Kiwanians, in cooperation with the Civic Theatre, are planning a community Christmas par-

ty, and entertainment for the children at the Children's Hospital. Full details will be announced later.
The program for Wednesday evening, December 12 is in charge of Gerald Grace and will deal with the growth of the community, and the housing problem.

Butter From Coal
Among the new developments in science uncovered in defeated Nazi Germany were plans for the production of artificial butter from coal.

Serve Vegetables Quickly
Serve vegetables immediately after cooking. They shouldn't stand and waste their sweetness on the kitchen air.

Anti-Radar Protection
The Nazis, according to American sources in Germany, had put into use an anti-radar coating for submarines. The coating was said to have made the submarines invisible against the radar beams and would not permit the recording of the image on the television screen.

"60,000,000 JOBS"
By
Henry A. Wallace
Secretary of Commerce
and Former Vice President

Can a peacetime goal of 60,000,000 jobs be attained in America without disastrous inflation, a rigidly planned economy or an unbalanced budget?

Secretary of Commerce Wallace thinks so and offers facts and figures to verify his assertion. Read this sensational best-seller by Henry A. Wallace on the biggest of the nation's problems. It is now appearing

THE HOME NEWSPAPER
FOR HOME DELIVERY, CALL RANDOLPH 2000

Beginning December 1st JOHNSON BABY SERVICE

Will Be Available to Mothers in Farmington, Livonia, Inkster And Immediate Surrounding Districts

This famous Baby Diaper Laundry will call for and deliver your baby's laundry twice each week — assuring you of two bundles of snow-white, sterilized, downy soft diapers and baby clothes weekly.

At the cost of a few pennies daily, you can now eliminate this formerly unpleasant task connected with bringing up baby, protect his health, and give yourself more freedom and relief from work and worry — more time to devote to your baby's welfare and training. All clothing and diapers are washed in our special germ-killing non-irritating formula, rinsed repeatedly in soft as rain permuted water, sterilized in live steam and returned to you in purity wrapped sanitary packages which assures baby an ample supply of fresh diapers and clean clothes at all times.

Not only diapers, but all clothing, blankets, sheets and pads are scientifically cleansed in Detroit's most modern and sanitary diaper washing plant.
