No. D-12005
NELLEE MONROE, Plaintiff
vs.
JOHN MONROE, Defendant.
ORDER OF PUBLICATION

At a session of said Court held at the Court House in the City of Pontiac, Michigan, this 10th day of November, A.D. 1945.
Present: Honorable George B. Hartwick, Circuit Judge.
It is judicially appearing by affidavit on file that the whereabouts of the Defendant, John Monroe, is unknown and cannot be ascertained; and that he is either not in the State of Michigan, or concealing in the State of Michigan; and that his last known address was Flint, Michigan.
It is Ordered that the said John Monroe appear and answer this Bill of Complaint in said cause within three (3) months from this date, of that the said Bill be taken as confessed against him; and it is Ordered that this Order be published according to law or that a copy of the same be personally served on the defendant by registered mail.
George B. Hartwick,
Circuit Judge.

Mud Pits
As every gardener knows, much of the seed planted never germinates because of birds and animals. A California scientist has overcome this by coating seed with mud and a small quantity of fertilizer. These mud pits stick to the ground unharmed, the federal government is investigating the value for reseeded vast range lands in the west.

Stipple Spray
If you want a delightful "stippled" effect the next time you do painting then spray your paint through a wire screen.

From Bustles ... TO BOBBED HAIR ... To Bobby Sox

Big things have happened in women's fashions since 1904... and since 1918. Yes, and the big changes have taken place in the telephone system since bustles were "the rage."

• In 1904, Michigan Bell had only 65,000 telephones. Total cost of buildings, equipment, wires, telephones, etc., was only 10 million investment dollars.

• By 1918 there were 260,000 telephones; the cost had risen to 38 million dollars.

• Beginning in 1945 there were 1,122,000 Michigan Bell telephones, and the cost stood at 242 million investment dollars.

You see, to add more telephones, and continually improve service, we must invest more money for central offices and switchboards, more for wire and cable — more for everything it takes to provide service.

Right now, 125,000 families want service that we can't supply. We already have started work on a \$120,000,000 program to enable us to fill waiting orders... to care for future growth... to resume extension of rural service... to put into use new technical improvements... and to give you the service you want in the future.

Rates charged for telephone service do not supply sufficient money for expansion. Such investment dollars must come from the savings of thrifty Americans willing to buy Bell System securities. And — in order to attract

their money — earnings must be sufficient to assure reasonable dividends, now and in the future. If not, those folks will place their money elsewhere.

Too long a continuation of a rate of earnings substantially below that of other industries would weaken our ability to raise the money required to meet expected telephone needs. So the future quality of your telephone service depends on telephone rates sufficient to produce earnings attractive to investors.

Michigan Bell customers want good service. The telephone bill is so small an item in their regular expenditures that customers want really good service even though it might cost a trifle more than they would need to pay for inferior service.
