

Renovate Closets

The first step in renovating dusty, cluttered closets is to give the walls, ceiling and door a thorough washing with soap and water.

Folate Dish

Shape mashed potatoes into fingers or little balls, put them neatly on greased baking sheets, brush with beaten egg and brown in the oven.

Pencilillin Preservative

Pencilillin is expected to play a role in the preservation of food. It will kill bacteria and spores that resist pasteurization and the heat of the non-pressure preserving kettles.

Fish Storage

If you want to hold fish in the refrigerator for some time, put the fish in lemon juice and cover with waxed paper. There will be no odor.

covering all present and future needs of Michigan veterans and members of their families, would be possible if the State Legislature, acting upon the recommendation of veteran organizations, set up a trust fund from the \$51,000,000 now on hand.

The interest on the trust fund so created would be made available to accredited veteran organizations for use in meeting the needs of veterans and their families on almost an indefinite, life-time basis.

For example, the State of Nebraska utilized the interest of its veterans' trust fund, established in 1921, to cover such emergency needs as food, fuel, wearing apparel, medical or surgical aid, care of relief funeral expenses, care of dependent children, or widows and widows who may be in need of assistance.

Since none of the principal itself was used, the Nebraska fund was successful in meeting annual needs of Nebraska veterans and the 1921 fund, augmented substantially to meet 1945-46 conditions, will be available, to do the same for veterans of World War II.

Prevention of fraud has provided in a penalty of a \$500 fine or six months' jail imprisonment for any veteran who "knowingly, by fraudulent representations," might obtain any payment or aid from the veterans' trust fund.

One of the unique benefits of the veterans' trust fund plan is the fact that no Michigan veteran would be forced to request public charity or relief for himself or members of his family.

It is akin to a savings account in the bank which is available for "rainy days." Except that the account in this case would be administered by veterans' organizations and not through public welfare agencies. Furthermore, the taxpayers benefit by knowledge that they will not be called upon to pay additional taxes for the public relief of distressed veterans.

....

Dwight Griswold, governor of Nebraska, reports that the veterans' trust fund is very popular in Nebraska, and in 1921, was suggested by the American Legion state department in 1921, and hence is non-political.

By giving the veterans' organizations power to handle the sums according to agreed upon requirements, the state has avoided the burden of a "big" paid organization under state auspices. All local work is performed by officers of the veterans' posts in local communities.

Here is an interesting quotation by Governor Griswold: "The State Fund Relief has proved highly satisfactory to the World War veterans themselves. It is their feeling that the man who is able to make his own way doesn't need a cash bonus from his state. They feel that the needy veteran is the one who deserves help, and they know that State Fund Relief will provide that help."

Whether Michigan veterans' organizations will fall in line with the thinking of Governor Kelly and recommend the establishment of a similar trust fund for Michigan veterans is the question before the Michigan Veterans' Advisory Committee tonight at Lansing.

There is every indication that the veterans themselves will favor such a program and will solve the dilemma of politicians, who for the sake of ballot votes, loan toward the idea of distributing \$51,000,000 in 1930 to all Michigan veterans and families in a day.

After all, 1945 is an election year. But veterans' needs will continue in 1947 and the other years one by one, for decades to come.

The decision is primarily one for the veterans to make.

Refrigerate Furniture
If when changing your furniture, you find a flat crushed surface is exposed, place a damp cloth over the spot and run a hot iron lightly over it. Brush the tufts gently in the direction of the pile.

Plug Shakers

When refilling salt and pepper shakers that have corks in bottom, or which have fallen inside, remove the cork and discard. Then paste maulage paper over the hole. Or use adhesive tape.

Conquering Hessian Fly

Thirty-nine years of investigations, costing \$450,000, to learn methods of reducing damage from Hessian fly are estimated to save up to \$55,000,000 a year throughout the winter wheat-growing areas.

Check Oil Burners

Have oil burners inspected and cleaned annually. Service man should adjust oil feed rate and air supply. Oil tanks should be installed according to rules of the National Board of Fire Underwriters.

THE OLD JUDGE SAYS...

HARRY: "I don't know what they'll weigh up, Judge, but my cattle and poultry sure have been gettin' fatter since I started to use distillers' dried grains in their ration."

OLD JUDGE: "Have any trouble getting all you need?"

HARRY: "Yes, at times, even though the distillers produce 1,200,000,000 pounds of it for the year endin' last June. I hope they'll be in a position to produce a lot more next year."

OLD JUDGE: "Then I guess nobody can tell you grain is wasted in distilling."

HARRY: "Not me, Judge... I guess."

THERE ISN'T ALWAYS ROOM FOR ONE MORE

Abdul doesn't know that a straw too many can break the camel's back. And many people don't know that one appliance too many on a circuit is the cause of that troublesome blown fuse. Many people are accustomed to inadequate wiring. But overloaded circuits are not your only handicap to home happiness if you have inadequate wiring. It means, too, improper distribution of outlets—not having the electric roaster where you want it because there's no outlet convenient, or it means that Dad can't use that electric shaver where he wants it. Don't think "there's always room for one more." Don't be like Abdul. Adequate wiring means a home for you "as good as new"—good enough to use every new appliance you'll want in your home. And, of course, if your plans for tomorrow include a brand-new home, adequate wiring is an "A-1" item to check in plans and specifications.

This is one of a series of advertisements prepared in the interest of the electrical contractors in your area to insure adequate wiring for every home. When you build or remodel, be sure your home is properly wired.
