## ST. PAUL'S CHURCH WILL HONOR SERVICEMEN

St. Paul's Lutheran church, at Middlebelt and Eight Mile Road, is planning special events for Sunday, February 24. In the morning service, at 10:45 a.m., a group of adult confirmants will be received into membership with the congregation. The following people are members of the class: Mrs. Clarence Hoppe, Mrs. Charles Kerby, Donna and Norma Tolvo Mackie, Mrs. Martin Merlans, Mrs. Winifred Proctor, Edward Seeley, Mrs. Norbert Sank, Mrs. Rudolph Tank, Charles Wisniewski, Mr. and Mrs. Frank Snyder and Mr. and Mrs. Ervin Snyder.

In the evening the congregation is planning a dinner in honor of its returning servicemen. Of the twenty-three men who entered the service as communicant members of St. Paul's all but three will have received their honorable discharge by next Sunday. All but the last five who entered saw action overseas. Several were wounded, two were reported missing in action, many received special citations, bronze stars and the silver star, yet there are no gold stars on St. Paul's service flag. This fact especially has moved the congregation to plan this event to show gratitude to God for His favor. Featured on the program is Major Victor Halboch, a Lutheran chaplain with the 8th Air Force in England for two years. He is known as a forceful and inspiring speaker, as is also the toastmaster, the Rev. A. W. Born of Holy Cross Lutheran Church, Detroit. The program will be concluded with a candle lighting ceremony and the presentation of certificates of grateful recognition to the servicemen by the Rev. E. J. Suemppig, pastor of the church. The Men's Club of the church is sponsoring the celebration, assisted by the Ladies Aid, and the Young People.

*The Early-Way Method*  
*Penmanship*

Emphasizes the simplicities of learning to write well. The Early-Way method removes the long, tedious hours of practicing on ovals and various other exercises and goes straight to the business of learning to make the letters of the alphabet. The Early-Way System affords many short cuts from other methods, but no detours. It proceeds logically from one letter form to another in a never ending sequence of interesting and surprising combinations of pen strokes. Only a demonstration of this system can qualify one to decide whether or not it has merit, and that demonstration costs only a phone call. No one need fear being subjected to pressure selling methods. The Early-Way School wants you to have the facts that make it outstanding and here it stops. This school feels that the American people can decide for themselves what is best for them when they know the facts.
