FAMILY, CANS OF BABY FOOD, SAIL TO GUAM

One of the first of the pioneering families sailing to husbands in the Central Pacific Area is Mrs. Virginia Buell and children, Sherrill Lee, three, and Billy, eight months, who will join Marine Captain Charles Buell in Guam — and probably live in a Quonset hut. Taking no chances with the children's health, Mrs. Buell carries along a six-months' supply of baby food packed in sturdy, germ-proof tin cans.

FARM BUREAU MEETS AT REICHARDT HOME

The March meeting of the West Farmington Farm Bureau Discussion group was held Thursday evening, March 21, at the home of Mr. and Mrs. Robert Reichardt. Everyone was sorry to hear that Mr. and Mrs. Reichardt are soon leaving this neighborhood, and everyone's good wishes go with them.

The Farm Bureau welcomed back William Morris, and everyone is glad that he is on the road to recovery. The Jay Dutton family were unable to be present because of the illness of Mrs. Dutton. The group extends its best wishes and hopes for her speedy recovery.

The committee appointed at the last meeting made their report of the numbers of unsprayed and neglected orchards in this community. Mr. Lovett and Mr. Kennedy of the State Plant and Nursery Inspection Departments were in this neighborhood making an inspection of some of these orchards and the Farm Bureau is in hopes that some state aid may be headed this way.

Wendell Green ably led the discussion of the subject "Should O.P.A. Be Continued After June 30?" The consensus of opinion was in the negative.

Mrs. Floyd Howard led the group in singing and Mary Green supervised the playing of some games that put the group in good condition to enjoy the ice cream and birthday cake on the first anniversary of the West Farmington Farm Bureau.

The April meeting will be at the home of Mr. and Mrs. Wendell Green.

Potential Air Cargo
Because seasonal sales and quickly changing styles place a premium on speedy shipment of men's and boys' tailored clothing, this type of merchandise is expected to be one of the biggest potential markets for air cargo.

Cooking Utensils
As far back as 1900, there were more than a dozen concerns which were manufacturing aluminum cooking utensils, either spun or cast, and it was during this period that aluminum steam-jacketed kettles were first produced.
