Promoted Aluminum.

Napoleon III was the most eminent of the early boosters of aluminum. In addition to his efforts to fit out his army with aluminum equipment and weapons, he himself wore an aluminum breastplate to foil would-be assassins. But another early promoter of the metal who, though of less renown, was no less enthusiastic, was the gentleman who christened his son, "Aluminum," and said that if he ever had a daughter he would name her, "Alumina," because he wished "a great and glorious future for his children as indicated for the new metal."

Do You Know Your School Board?

Have They A Constructive School Program?

The only detailed, workable program as yet presented was developed after an extensive study by Mr. Ayres. --- Mr. Schrieber supported Mr. Ayres' program without any support from the balance of the board. Mr. Ayres subsequently was refused a renewal of his contract. Again - Why?

Have They Enough Consideration For The Teachers To Keep A Good Staff?

The teachers' contracts were not available by April 1st, as respectfully requested.

Have They Any Consideration For The Children?

The Board tabled an incomplete petition signed by 270 citizens, asking for the retention of Mr. Ayres.

COME TO THE NEXT SCHOOL BOARD MEETING!

This weekly message is sponsored by a group who are interested only in a clear cut constructive program. We feel that this can be accomplished in but one way — A School Board whose prime concern is to serve the public OPENLY and without obscured tactics.
