Among those who have received their honorable discharge from the Navy are Frederick E. Kupsky, AS, of 36671 Howard Rd.; George N. Gould, WT 3/c of 5009 Parkhurst St. and Stanley J. Laughton, S 1/c of 21624 Waldron.

Farmington, Michigan is represented in Berlin District's new GI high school by Private Jack V. Markell of 23410 Sans Souci, one of the American students earning extra credits.

Pvt. Markell, the son of Mr. and Mrs. Warner Markell, and a member of 252 C. Engr. BN, is studying Blue Print Reading and physics under the capable instruction of one of the GI teachers who have volunteered their time in order to serve as a teaching staff in the school.

Much of the credit for the establishment of this novel school is due Captain Lloyd C. Lieurance of American Headquarters for Berlin, offers twenty courses in six fields of study; agriculture, business, mathematics, languages, history and sciences, with German teachers handling technical, language and science classes, and American instructors giving courses in history and business.

The Secondary School in the McNair's Barracks, which also houses American Headquarters for Berlin, offers twenty courses in six fields of study; agriculture, business, mathematics, languages, history and sciences, with German teachers handling technical, language and science classes, and American instructors giving courses in history and business.

For the 11 week course in the School the equivalent of one high school credit is earned, a credit which may be used for further USAFI or high school study. A certificate of credit is given every student upon completion of 10 hours of work. Whether these credits can be used to obtain a diploma from his school at home depends on the school's acceptance of the Army credit.

Classes are held in the afternoons, five days a week, with three hours devoted to classwork. Homework is done on the GI's own time as it was done in the school at home.

This Army high school, set up in a land far from their homes may well be termed one of the best things to come to Berlin, for it is giving American occupation troops a break they did not expect — an opportunity to complete studies interrupted by the war.
