

Discover Celtic Temple
Excavations for airfields in England brought interesting disclosures. One revealed the design of an ancient Celtic temple of wood, a square within a square, and on this site also were found bronze earrings. The temple was probably built between 500 and 300 B. C.

Life-Saving Shoes
A forerunner of aluminum life-saving equipment was the pair of aluminum shoes invented by a German who claimed he could walk on water with them. They were aluminum cylinders 13 feet long and were light enough to be carried on the shoulders like a pair of oars.

Uncle Sam Says

Apple blossoms are blooming here in the State of Washington. If it is needed another reason to impress you with the wisdom of buying United States Savings Bonds regularly, these orchards would inspire me. Every Savings Bond will bear fruit later in the form of a new home, education for a child, or realization of other personal goals. Your Savings Bonds grow to full richness in ten years, \$4 for every \$3 invested. U. S. Treasury Department
