No, we don't expect to comment about the current political campaigns of Republican and Democrat candidates. This column is non-partisan, and we're going to leave politics to someone else.

Radio programs are hitting a sudden slump, as manufacturers fail to renew contracts. Reason: Why spend money to sell products we are unable to make? Abandoning shows are General Motors, General Electric, Armour & Co., Frator & Gamble, Bristol-Myers, Lever Bros. Chrysler and Westinghouse.

You Will Be Glad To Know... ABUNDANT SUPPLIES OF NATURAL GAS IS ON THE WAY

Michigan as huge underground storage tanks. Into these, Michigan Gas Storage Company, a proposed subsidiary of Consumers Power, will pump billions of cubic feet of Panhandle Eastern natural gas, brought from Texas, Oklahoma and Kansas during the months of each year when domestic consumption of gas is low. By this means, a vast reservoir of natural gas will be built up and made available to Consumers Power to meet the heavy demands of winter.

Panhandle Eastern is glad to join with Consumers Power in announcing this happy solution of a serious and complicated problem... one which threatened to interfere severely with the growth and prosperity of your own community and many others.

Officials of Consumers Power and Panhandle Eastern have recognized for several years the need to provide more gas to meet the heavy demands that inevitably would develop after the war... especially since Michigan's own gas fields are rapidly becoming exhausted. However, until recently, Panhandle Eastern's entire supply was under rigid controls imposed by the War Production Board. Similarly, all new construction was prohibited, except as ordered by the government to serve critical war areas.

Now the road is open. Consumers Power and Panhandle Eastern are moving with utmost speed to assure your future gas supply.

Given the approval of the Michigan Public Service Commission and the Federal Power Commission, the new Michigan Gas Storage Company will start construction of the pipe lines and compressor stations it will need. On its part, Panhandle Eastern is awaiting authority of the Federal Power Commission for its own \$27,000,000 construction program which will bring additional natural gas from the Southwest.

This large-scale construction by both companies, even under the most ideal conditions, will require all of this year and most of 1947 to complete. Meanwhile, we wish to thank users of Panhandle Eastern gas... gas customers of Consumers Power Company... for their patience and understanding.
