Oakland County
By Electing
An Experienced
PROSECUTING
ATTORNEY

As was said in a portion of the Pontiac Daily Press editorial of April 24, 1946, relative to the recent resignation of the prosecutor, "it is to be welcomed because it will permit complete reorganization of one of our most important county offices which, as Mr. Noggle himself admits, has not been fully efficient for a period of many months."

For CHILLY SPRING MORNINGS
an **ELECTRIC HEATER**
FURNISHES GLOWING WARMTH

No need to fire up the furnace these chilly spring mornings when an electric heater will give instant warmth... where you want it... when you want it. Safe, clean, economical, an electric heater is ideal for warming your dressing room, bathroom, or other small rooms.

Just a Few Cents an Hour is All It Costs...

but unlimited use can cause abnormally high electric bills. For example, a 1000-watt heater at residence rates, costs only 17¢ a week when used one hour daily for seven days. The same unit used 8 hours daily costs \$1.40 a week, and adds \$10.20 to your two months' bill. Consult a reputable electric dealer who can recommend a heater of sufficient wattage to suit your particular needs. He can also tell you just what it will cost to operate.
