Farmington (Mich.) Enterprise

To the Editor:

The picture presented in your

editorial — THE MASS EXODUS

— is truly alarming. Alarming,

both for those of us who have

children and expect to be able

to provide them with a suitable

education in the Farmington Town-

ship District schools; and, how-

ever, for those of us who must

look to our educational system

to prepare the youth of our com-

munity to take their rightful

place among us as citizens. The

enemies of our American way of

life are well aware of the close

connection between a given level

of education and a given kind of

society. BUT ARE WE? Are we

watching the performance of our

school system, and of those whose

responsibility it is to establish

policies, and those whose job it is

to execute those policies in the

administration of the system? And

are we satisfied with what we

see?

If not — and I would venture to

say many people are not satisfied

judging by the letters in "Sincere-

ly Yours" columns in your pa-

per, by the challenge of your fine

editorials on the chaotic conditions

in our school system, by the vocifer-

ous and healthy attendance of

citizens of the school district at

meetings of the School Board —

then the time is fast approaching

when we must exercise our right

as citizens, and fulfill our duty

to the children of our community

by voting at the annual election.

To fulfill our responsibility to the

children of our community, we

must not only be registered, and

voted, but we must elect to the

School Board, people who will ex-

ercise their influence to the utmost

to stabilize our school situation.

They must exert themselves —

1. to provide a method of care-

ful selection of administrative and

teaching staff, and to make these

jobs interesting and secure enough

that they will develop a feeling

of loyalty to the system and to

the community,

2. to develop a sense of good

public relations, keeping all of us

informed of where our school sys-

tem is going, how the future is

being planned, how our money is

to be spent and why, what trained

educators think of methods like

improvements, etc.,

3. to provide teaching space and

facilities where needed and when

needed, within the means of us

folks who have to shell out at tax

collection time, and

4. to provide well - rounded

schooling for ALL the kids of the

district, whether they go to work

or to college from high school.

Candidates will be making them-

selves known shortly. We must

examine their qualifications criti-
cally in comparing one with an-
other. What do they stand for?
Along what lines do they think?
Have they the courage of their
convictions? As you say in your
editorial, we must think in terms
of the best qualified men — men
who stand for the best policies in-
stead of politics and personalities.
Let's REGISTER, folks, all of
us! And let's VOTE FOR THE
RIGHT MEN.

Joseph K. Boltz,
27655 Old Colony Road.
