At their regular meeting in the Neighborhood Church last Wednesday afternoon the Sunshine Sisters, who acted against holding a Mother and Daughter banquet during the usual season for such affairs, decided to have an informal get-together of Mothers and Daughters Tuesday evening, June 16th.

The meeting will be held in the Neighborhood Church at 7:30 p.m. and will open with a pot-luck supper. Participants are requested to bring their own easily identified silverware and each family group should arrive with a dish of such food as suits their convenience. It is expected that paper plates and napkins, tea and coffee will be on hand.

Following the supper there will be a simple program with Mrs. Gordon Cameron taking the leading part. It is planned to have the usual presentations. All mothers and daughters interested in the work of the Sunshine Sisters and the Neighborhood Bible School are invited to be present.

Plenty For Us; Neighbors Too

With the great demand for American foodstuffs to feed Europe, many are wondering just how well we will eat in the United States in 1948. According to reports from the Bureau of Agricultural Economics of the Department of Agriculture, received by Michigan State college, we will eat more than in any previous year.

Although total food production may fall slightly below 1944 and 1945, it will be approximately one-third above the 1935-1939 average.

Despite reductions in civilian supplies of meats, fats, sugar and grain during the last few months, our average diet will be about 3,300 calories daily. Compared with the UNRRA ration of from 638 to 1,051 calories daily for the people of Greece, it would show that Americans will have enough left, even after we share a little with our European neighbors:

UNITED WE STAND

The Memorial Day Parade held in Farmington on May 30, 1948, was a tribute appropriately remembering those who made the supreme sacrifice in battle and a challenge to all to join hands with our fellowmen and pledge, in the language of Abraham Lincoln, to "finish the work we are in, to bind up the nation's wounds, to care for him who shall have borne the battle, and for his widows and his orphans, to do all which may achieve and cherish a just and lasting peace among ourselves and with all nations."

The city of Farmington may feel proud — and justly so — of the civic and patriotic organizations represented in the parade whose

LIEUTENANT GOVERNOR
REPUBLICAN PRIMARY, JUNE 18

Thanks to Our Customers!

Thank you for helping us during the coal shortage by reducing your use of electricity.

We thank Governor Kelly and his staff, the Michigan Public Service Commission, Mayor Jeffries, members of the Common Council, the mayors of other cities throughout our territory, and the Board of Commerce for their help. We are grateful for the support of the press and radio in explaining the necessity for saving electricity.

We appreciate the help given us by the Public Lighting Commission of the City of Detroit, Consumers Power Company and Ford Motor Company, from whom we received electricity over existing interconnections. Industry and business and citizens all willingly cut their use of current.

Our Company tapped every resource to stretch dwindling fuel supplies. For example, where possible, coal burning furnaces were temporarily converted to oil. As a result of all this effort it was possible to avoid more drastic curtailment of electric service.

Coal is now being received and barring further fuel interruptions we expect to be able to meet all your needs for electric power and light.
