Michigan Mirror

(Continued from Page Two)

The John Bean Manufacturing company, Lansing. The device backs stalks of hay and mechanically dries them. . . . Because politicians wished to avoid the July farm rush and the June 16 bass fishing season, the 1946 primary will be held Tuesday, June 18. One result: Longest political campaign in state history.

Howard Nugent of Bad Axe, speaker of the house and republican candidate for lieutenant governor, has always treated state legislators with courtesy and fairness. He received a big dividend last Wednesday (June 6) when state representatives and state officials honored him at a luncheon in Lansing. Nugent received an unusual compliment from Governor Kelly: "Michigan's best speaker."

A pictorial history of Michigan State Troops and their service during World War II is to be undertaken this year. It is announced by Major Gen. Thomas Collins. . . . It is very unlikely that Governor Kelly will call a special session of the legislature this fall to consider a veteran bonus. . . . Why? Favor small business quotation of President Truman: "Every one of the small institutions gives two or three men a chance to be big shots in their communities." When we were a kid in Indiana, the same idea was said in this way: "A big toad in a small puddle."

One of the worst black markets in eggs in history is being fought for this fall. Dwindling supplies of poultry and livestock feed are discouraging production of chickens, eggs, turkeys, milk and meat. . . . The Michigan Railroad Association is concerned over a "current epidemic of juvenile trespassing on railroad property." The youngsters throw stones through car windows. Passengers are put by flying glass. The nation's deadliest list of boys and girls, injured or killed while trespassing on railroad property, is said to be staggering. Hence the urgent plea: "Don't play on the railroad!"

Highlights of Detroit's golden jubilee: An audience of 2,500 industry leaders rising in spontaneous tribute to Henry Ford, symbol of Detroit automotive genius. It was this native of Dearborn who courageously established a daily wage minimum, who gave America its first low-priced automobile, who founded the Edson Institute and Greenfield Village as an outstanding Detroit attraction. Henry Ford: The rugged individualist, the symbol of free enterprise.

Second in the affection of the automotive people, who had assembled for the pioneers' dinner, was Lt. General William S. Knudsen, former president of General Motors. A native of Denmark he came to this country in steerage. Knudsen is beloved for his patriotic service during World War II. He exemplifies our land of opportunity. A friendly, tolerant man. Yet a man, like Henry Ford, of great courage and action. Such is "Bill" Knudsen.

The President's emergency labor proposal, which was opposed in the Senate by Michigan Senators Vandenberg and Ferguson, was not favored by many Michigan manufacturers. And here's why. If this program had been a law during the General Motors strike, the government could have sided the plants, inaugurated wage increases recommended by fact-finding panels, compelled executives to continue at their posts and run the business until the company agreed to sign a contract embodying the wage findings.

Any profit earned by government operation would have gone into the U.S. treasury — a short-cut to nationalization of industry. Labor could have been drafted into the army by presidential decree. If General Motors executives had refused to keep the plants running, they would have been subject to court injunctions and possible imprisonment or to the alternative of being inducted into the army. All of this could have happened if the Truman program had been enacted by Congress prior to the General Motors strike.

OAKLAND COUNTY RED CROSS NOTES

The Oakland County Chapter American Red Cross will again offer a Water Safety Program to the Public, beginning June 17, and continuing once a week for eight weeks during the summer months, according to Mark Smith, chairman of the Water Safety. Russell H. Palmer will direct the program and will be assisted by June Hartridge and Gwen Kemp.

Mr. Palmer is an authorized Water Safety instructor and has many years background in this particular field. Classes will be held at Avon Township Park; Lake Orion City Park; Stevens Beach, Oxford; Bush Lake, Holly; Washtenaw Lake; Chetolah Shores, Grosse Pointe Park; Orchard Avenue, Cass Lake; Cunningham Park, Sylvan Lake; Walnut Lake; Walpole Lake; Beaumont Subdivision, White Lake; Hazel Park High School Pool; Royal Oak High School Pool; Deer Lake, Clarkston. The day and time of each class will be announced later.

Red Cross certificates will be awarded individuals satisfactorily completing the various tests and classes are open to all ages. Individuals wishing to learn to swim may attend as well as those who

wish to complete any particular task including Junior and Senior Life Saving. Each year countless individuals suffer accidents in Oakland County Lakes, many of them fatal. A number of these accidents would not occur if individuals had a knowledge of their own personal safety. Red Cross classes are designed to teach skills which will guard against these accidents.

The Annual Meeting of the Oakland County Chapter, American Red Cross will be held Wednesday, June 12 at 8 o'clock at the Birmingham Community House, according to C. G. Rudderham, chairman of the chapter. Election of officers will take place and annual reports will be made by service chairmen. All Red Cross Directors, volunteers and members of the local chapter are invited to attend.

Oakland County Junior Red Cross members have been participating in the Famine Relief program set up by the President's Famine Relief Committee according to the chairman of Junior Red Cross, Mrs. R. A. Armstrong. Juniors have been active in distributing a Famine Relief chart which is a constant reminder to house-

wives and children that we must conserve in order that the world may be fed.

During the past year Juniors have sent countless gift boxes overseas, many of which have brought back heartfelt thanks from children who have been denied many necessities of life during the war years.

Oakland County Juniors are also learning more about England, France and other foreign countries by the exchange of letter booklets written by the children themselves.

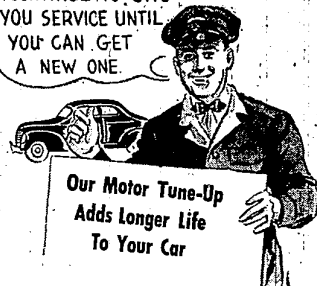

Milk Lactose

Milk provides the only commercial source of lactose, a sugar which digests more slowly and therefore gets farther down the digestive tract than other sugars. In the intestines it stimulates the growth of tiny, microscopic plants which aid the absorption of calcium. Lactose, by the way, is part of the medium in which penicillin-producing molds are grown.

Dangerous Hours

In the fall and winter months only 24 pedestrians are killed in traffic accidents in the three hours immediately before sunset for each 100 who die in the three hours just after sunset.
