If you have been discharged from the Army—if you held a grade and wish to retain it—if you have dependents—then act now. . . June 30, 1946, is the last day on which you can enlist in the Regular Army and still take advantage of two important benefits . . . retention of your old grade and family allowances.

Family allowances for your dependents will be continued throughout your enlistment only if you enter the Regular Army before July 1, 1946.

If you have been discharged from the Army and wish to reenlist at your old grade, you must enlist within 90 days after your discharge. And before July 3, 1946. Think it over. Act now.

**Oh Boy! now for a good Hot Bath**

They know from experience that there is nothing like a glorious, warm shower bath to soothe and relax their tired, aching muscles. They know too, that even though they have used many gallons of steaming hot water to aid them in their cleaning work that their automatic gas water heater will have an ample supply of hot water on tap for that soothing bath they look forward to with so much anticipation.

For better living, better health and greater cleanliness, plan now to install an automatic gas water heater as soon as possible.
