STEP ABOARD A GREYHOUND . . .

... The vast northern vacation wonderlands of Michigan's Upper Peninsula and Northern Ontario are now within easy reach... via two new time-saving, money-saving Greyhound routes.

You can travel in Greyhound comfort through Michigan to St. Ignace. Here your route meets the transcontinental highway which taps the thrilling vacationlands of Michigan's Northern Peninsula to the west... Ontario's scenic Georgian Bay region to the east.

Greyhound's eastern route via Detroit and Port Huron enters Canada at Sarnia, swings north to Tobermory and on through the lovely Manitoulin Island to Espanola, where it also joins the transcontinental highway.

Plan now for a delightful vacation in the enchanting North Country. See your local Greyhound travel agent.

Here
comes
the bride!

JUNE has swung around again, and this month brides by the thousands will start housekeeping—if they can find a house to keep.

In days soon to come, light housekeeping will be even lighter with electrical servants ready to wash and iron, clean and cook at the flip of a switch. And some day there will be many new electric aids—air conditioners, food freezers, electric blankets, television sets, and all the wonders of the era of electric living which lies ahead.

The electric service which powers these time- and labor-saving appliances will continue to be inexpensive, friendly, dependable—ready around the clock and calendar—just as in the past.

Maybe 1946 brides will take the advantages of electricity for granted, just as you do. We hope they will. We're glad you just naturally count on the high efficiency and low cost of electric service. The men and women in this company worked hard to make electricity cheap and dependable. They'll work even harder to keep it that way.

Enjoy "THE ELECTRIC HOUR" with Robert Ambrose's Orchestra.
