 "Dedicated To Serving You Better"

Farmington Exchange Club officially opened their new season on September 4. Lloyd Guillen was chairman for the opening program, entitled "Open Club Day."

Each Club member introduced himself, giving his occupation and his slogan, if any. Following this Paul Paré spoke briefly on the duties of committee chairman; George Dewey spoke on the officers' duties, and Stanley Stone spoke on the place of the club in the community. Open discussion followed.

At the September 11 meeting, Clet Hall was chairman and the guest speaker was Harry Whong of the Oriental Gardens Department of the J. L. Hudson Company. Mr. Whong, who was born in Korea, and who has received his tertiary education there, living for ten years under Japanese rule, later coming to the United States, and receiving his secondary education at University of Chicago, gave a most interesting review of Korean history. His talk was largely concerned with the world balance of power. He told many little known facts concerning the dealings of the United States with Korea, facts that one would never find in our history books. His talk also concerned relationships of Russia and Korea.

Harrison Johnson is in charge of the program to be presented on September 25.

Service Notes

Howard C. Lord, who has been serving with the United States Army, and in Honolulu since April, has received his discharge and returned home to be with his mother, Mrs. Kenneth Lord.

Bill Mitchell, who has served in the Merchant Marine for the past two and a half years, has been discharged, and returned home. His brother, Owen, entered the Army this week, and is en route to a camp in Texas.

STrikes Highest Point
 Lightning tends to strike the highest point in the vicinity which might be a barn, a tree, or a man working in a field. Seek adequate protection in a lightning-protected building if possible. Fairly good protection may also be had in cave or depression of some kind or in a woodland. Never seek a small grove or a single tree in a storm.

An Amazing Human Document
 By **JOHN HERSEY**
 Author of "A Bell for Adano"

Volumes have been written about the atom bomb and Hiroshima, but it remained for John Hersey, the novelist, to capture the human reaction to the first atom bomb's impact! This he did by the simple process of asking six people who lived through the terrifying ordeal to describe in detail what happened, how they felt, what they saw, what they did.

These were the Methodist Minister Tanimoto, Jesuit Father Kleinsorge, Dr. Sasaki Fujii, Mrs. Nakamura, and Miss Toshiko Sasaki.

When Hersey's story came to The New Yorker, that magazine immediately cancelled all of its usual editorial matter to publish it complete. That The New Yorker judged correctly was evidenced by an immediate sell-out. Now, The Detroit News feels it is a great privilege to be able to present to its readers this remarkable document, beginning in
