**Clarenceville PTA Meets Tuesday Night**

The Clarenceville Parent Teacher Association will meet on Tuesday, November 12, at 8:00 p.m. at the High School on Middlebelt Road.

Several of the members attended the Parent Education Institute held recently at Ann Arbor, and reports will be given at this meeting.

**Leave Lids Ajar**  
Leave the lids and covers of kettles ajar when the utensils are not in use, home economists suggest. Stale odors and flavors, often present in pressure canners and saucepans, double boilers and other containers with tight covers, may be caused by storing the utensils tightly closed and not completely dry.

**Hot Spot**  
Eritrea in East Africa lacks resources and has a hot, humid climate which has earned it a reputation as one of the most uncomfortable regions on earth. Except for salt, evaporated in vast coastal pans under the scorching sun, this colony normally produced little for export.

**Transit Compulses**  
There are 84 separate companies operating the street cars, trolley coaches and gas buses that make up America's urban transit system.

**Why Jumping Beans Jump**  
Mexican jumping beans "jump" because of the movements of moth larvae spinning their cocoons inside the beans they infest.

**Uncle Sam Says**

I do my hat to labor, Labor Day, not only for doing a grand job for our country in time of war but for its good sense in continuing to invest part of its earnings in U. S. Savings Bonds. Millions of my nieces and nephews discovered that ownership of U. S. Savings Bonds is an easy, effective, profitable way to save for their future. Savings Bonds are as American as Labor Day itself. Be in step with today's parades of payroll savers. U. S. Treasury Department
