College.

The program will end the winter project work for 4-H clubs inthe county, and will be a send-off
for the summer project.

SHORTAGE OF FARM FERTILIZER IN STATE PREDICTED

From all indications there will be less commercial fertilizer vailed to the spring of 1911 than there was in 1946. Sales records show that 3.15 per cent more fertilizer, was sold in the spring of 1946 than in the spring of 1947 than 1947 than

Any price is too high if it can be reduced Judy Melinand

International Harvester announces \$20,000,000 price reductions

We believe there is nothing more important to this country than to lower the prices of the goods that people buy.

goods that people buy.

The American people have insisted that the government withdraw from its attempts to control prices in pencetime. That places the responsibility where it belongs—in the hands of business and industry. Not all business can reduce prices now, Not all can reduce by the same amount.

same amount.

Our company has felt a duty to act as promptly as possible. In our case, the business outlook now makes it possible to move toward the goal of lower prices. The only way out of the vicious circle of higher and higher prices is to break through.

Trees is to break turbugh.

We have taken this step not because of resent competitive conditions nor because of drop in demand from customers. We have aken it because of our belief that ANY PRICE IS TOO HIGH IF IT CAN BE REDUCED.

IS TOO HIGH IF IT CAN BE REDUCED.

These reductions, which will save the users of our products, approximately \$20,000,000 a year, will become effective before Agril 1, and will apply to a selected list of tractor, farm machine, inotor truck, and industrial power products. Since we lose money on a few of our products, and partly break even on some others, these reductions will be of the products as soon as possible.

as soon as possible.

Our ability to maintain this lower level of prices will depend in part on what happens to the prices and flow of materials that we buy from others. Because we believe price reduction is vital, we are willing to assume the risks that are involved.

INTERNATIONAL |

prices had not gone up as much or as fast as many others

too, on uninterrupted production at reasonable wage levels. This is not a program that can be carried out if it is hampered by strikes or work stoppages.

er work stoppages.
Our employes have had substantial increases in pay, and wage questions are currently heing discussed with many of the unions with which we deal. Stochholders have recently had an increase individend rate. Having considered the interests of these two groups, we are now making these price reductions for the benefit of the third-group—our customers.

Business, to our way of thinking, has a so-Husiness, to our way of tumining, has a so-cial as well as an economic responsibility. This company has long followed the policy of op-erating in the interests of three groups—its customers, its employes and its stockholders. The duty of the management is to see that equal justice is done as between the three groups.

HARVESTER
