FARMERS' WEEK TO BE RESUMED ON M.S.C. CAMPUS

Farmers' Week, which brought from 30,000 to 40,000 farm people to the Michigan State college campus annually prior to being crowded out by increased veteran enrollment at the close of the war, will be resumed in January, 1948.

E. L. Anthony, dean of the school of agriculture, announced today when winter term enrollment in the 1947-48 term taxed classroom seating and housing facilities of the campus and East Lansing, the 1946 Farmers' Week was cancelled, further increase in enrollment necessitating holding the event in January of 1947.

Dean Anthony said a conference with President John A. Hannah resulted in a decision to hold Farmers' Week in January, 1948. "We are happy to be able to return this traditional service to the Michigan farm people. We were sorry not to have been able to hold it the past two years, but educational facilities for our returning veterans should be our first consideration," Dean Anthony said.

The building program on the campus is progressing to a point where more facilities seem possible by late January, Dean Anthony related. Although enrollment this fall and winter at the college is expected to break all previous records, special arrangements will be made to take care of the visiting farm people.

During the Farmers' Week program the various farm organizations, livestock associations, crop associations and others hold their annual meetings. Annual livestock judging contests entries are exhibited and grand champions are selected.

Dean Anthony said farmers with livestock in the feeding contests would be anxious to learn the dates so that they could plan their feeding program.

When is a rate increase a good thing for telephone users?

Now we face the fact that 1937 rates won't work in 1947.

We don't like a rate increase any more than you do. We've waited until the last possible moment to ask for one. But that moment has now arrived.

There's a lot of work to be done and a lot of money to be spent to give more and better service to everybody who wants it. The money will have to come from investors. They will furnish it only if they can be sure of a fair return, which our present rates are simply too low to provide. A growing business, especially, has to earn a good return in order to attract the capital needed for growth.

Telephone rates are regulated by the Michigan Public Service Commission, a body established by State law and appointed by the Governor. We're going to ask the Commission for a public hearing to review our proposed new schedule of rates. During the week of August 3, we'll publish details of the proposed rates throughout Michigan Bell territory. After that, we'll file a petition with the Public Service Commission.
