DEROY STORE MANAGER PRESENTS AWA RDS TO WINNERS

Mr. George Agree, manager of DeRoy Jewelers Redford Branch Store presenting awards to winners in the DeRoy guessing contest which was held several weeks ago on display in the DeRoy Redford Store.

Sour Cream Dishes

Many sour cream dishes require that the cream be whipped. However, it is important not to over-whip the cream, or it will quickly churn and form butter. For the same reason, and to hasten whipping, the cream must be kept cold while being whipped.

Save Dishwashing

To save time and dishwashing when a recipe calls for milk, measure dry ingredients with your cup first, then use the same cup to measure milk.

Serving Cabbage

One of the best ways to utilize the full food value of cabbage is to serve it in the form of a fresh salad. That way, there is no loss through cooking, and there will be little loss by exposure to air if the cabbage is cut shortly before serving time.

WANTED — Woman to assist with general housework for 3 adults; on 2 days a week. Telephone 0504-R2.

Orchard Pest May Be Aided by DDT Use

The European red mite—a spider smaller than the head of a pin—cannot be controlled by DDT. On the contrary, this fruit tree pest may even increase in numbers where DDT sprays are used. Dr. Ralph W. Dean of Poughkeepsie, assistant professor of entomology at the Hudson Valley Fruit Investigations Laboratory, declared.

Two insect predators that feed on the red mites are commonly found in our orchards, he explained. One is a tiny, black ladybird beetle; the other a true bug. At times, they may be the influence which decides whether or not the mites will become destructive. If, at such a time, they are killed out by DDT sprays, the mites will increase unchecked. This has happened in many places where DDT sprays were applied.

The mite does its damage indirectly, by feeding on the juices of leaves and slowing down their photosynthetic activity so that they do not manufacture the sugars to produce good fruit. Dr. Dean pointed out.

Hybrid Acreage Up

Hybrid corn acreage in the United States has expanded from about 1 of 1 per cent in 1931 to 84 per cent in 1945, according to the department of agriculture.

School Board

(Continued from Page One)

tion that the old vacant residence on the Grand River school property next to the Band House be torn down and the ground leveled off, contingent on a written opinion by Leonard. O. E. Dunkel, superintendent, stated that the building was too far gone to be used for a residence and that it was unsafe as it is. The Board approved the motion.

Mr. H. E. Stuckey, 23700 Warner Avenue appeared before the Board to request that a new fence be installed and maintained along the back of his property which borders on the school playground. He stated that children were cutting through his property and coming across into his back yard. Stuckey also requested the Board to straighten out the tax rolls regarding the new boundaries. Property lines were changed last year when the District straightened out its boundaries to build the new school addition. He also asked if some thing might be done to eliminate the dumping of school rubbish on the corner of the property. The Board directed Dunkel and Leonard to look into the questions and to report back.

Natives' Belief

The Papuans, a tribe of New Guinea, believe that souls of dead people return and may even marry mortals.

Legion Wins

(Continued from Page One)

winning 8 to 1. Morrel and Werschlin were the leading batters for Farmington with 2 hits apiece.

Farmington will play Clarenceville in the first game of the Division play-offs this Sunday afternoon at 2 o'clock. The game will be played at Clarenceville High School on Middlebelt Road. The play-offs are two game elimination. Five teams will participate in the play-offs as Farmington and Garden City tied for fourth place in the eight team league. They are V.F.W. Post 1413, Clarenceville, Plymouth, Farmington and Garden City. League standings are as follows:

V.F.W. Post 1413	12	4
Clarenceville	11	5
Plymouth, Daisy Air Rifle	11	5
Farmington	10	6
Garden City	10	6
Wayne, Ford	5	11
Novi	4	12
Plymouth, Allen	1	16

Cool Milk

Milk, after being drawn, should be cooled in winter just as in warm summer weather. Prompt cooling prevents growth of bacteria.

Uncle Sam Says

Everybody knows it pays to buy U. S. Bonds. But not everybody knows how much it pays. By investing as small a sum as \$2.50 a week in U. S. Bonds, your savings will be \$1,419.84 in ten years. Take savings of \$3.75 a week; by 1957, you will have \$2,163.45. There are two easy ways to save automatically. Have a regular amount of money set aside from your pay each week for bonds through the Payroll Savings Plan. Or, if you're not on a payroll, but you do have a checking account, you can have your bank automatically charge your account for the purchase price of a bond each month.
