A LITTLE HOME-MADE WINE helps while away the winters on Mackinac Island for Minerva Saunders and Hetty Pickering. They're in the cat of the musical "Mackinac" which will be presented in Harrison High School April 14-15. In real life, they are Betty Love (left) and Margaret Savelly. (Evert photo)

## City Sells Shrubs, Evergreens—Inexpensive For Arbor Week

FARMINGTON The City of Farmington Beautification Committee has organized a program to allow Farmington residents to purchase shrubs and evergreens at a savings in commemoration of the 100th anniversary of Arbor Day. During the past three years, the committee has celebrated Arbor week with successful tree planting programs,

selling over 700 trees to residents.

THIS YEAR, the committee is offering shrubs and evergreens instead to enable residents to further beautify their landscape at a savings.

Two flowering shrubs available at \$2.95 each, including tax, are:

Red Twig Dogwood, which has colorful red twigs and creamy white flowers followed by white berries to provide color accent the year around. It is from two to two and a half feet tall when purchased and grows to six to eight feet; Lynwood Gold Forsythia, which has golden yellow flowers in spring before foliage appears and can be cut for flowering in the house during winter months, is from three to four feet when purchased and grows to five to eight feet tall.

EVERGREENS available at \$3.95 each including tax are:

Hetz Juniper, which is silvery-blue and has rapid growth, is purchased at one and a half to two feet tall and grows to five feet tall with spread of five feet or more; Dwarf Yew, a slow growing evergreen with low, irregular and picturesque outline making it excellent for specimen, hedge or edging, is from one to one and a half feet tall when purchased and grows to three feet tall.

All the shrubs and evergreens are guaranteed for six months. Each is potted in a self-dissolving container which simplifies planting.

RESIDENTS should present the coupon printed below to the Steinkopf Nursery, 20815 Farmington Rd., during April 23-29, to purchase unlimited quantities of any or all of the above mentioned shrubs and

## Hill & Dale Giving Skit

FARMINGTON A skit entitled "Love is — Hill and Dale," will be presented by the Farmington Hill and Dale Players at the April 13 meeting of the garden club.

The meeting, which begins at 8 p.m. in the Farmington Community Center, will have Mrs. Keith Willoughby as a special guest.

Mrs. Willoughby is a member of the Farmington Garden Club and has served on the State Board of Federated Garden Clubs of Michigan as editor of the "Garden Gate," a bi-monthly publication of happenings in Michigan.

Mrs. Willoughby was also instrumental in getting Hill and Dale off to a good start.

Business on the agenda is election of officers and a white elephant sale with proceeds going to the new Farmington District Library.

Hostess chairman for the evening is Mrs. Bruce McAllister.

## April Is Month To Clean The Air

An appeal is being made to Farmington residents to do their part to help clean up the air during the month of April.

April has been declared National Emissions Control Month by President Nixon and proclaimed that locally by the Farmington City Council.

EMISSIONS can be a dirty word when faulty vehicles result in black smoke coming out of tail pipes.

Gordon Zemnickas, manager of Astro Tune-Up of Farmington, would like to eliminate much of this black air and keep the air as clean as possible during April.

As a special feature during Emissions Control Month, Zemnickas is offering a comprehensive emissions control analysis at half price, \$4.95 instead of the regular charge of \$9.95.

The analysis checks out the ignition, emissions control and fuel systems of the vehicle and locates which of the systems are responsible for emitting black smoke.

"POLLUTION is a big problem and we feel a lot can be done by individuals taking their own preventive steps rather than depending upon the large corporations to solve the problem," he comments.

"Comprehensive studies show that our engine check and necessary adjustments to the car can reduce individual vehicle pollution by as much as 25 per cent.

"It can also result in an annual fuel-cost savings of as much as \$21. So we see this as an opportunity to provide a real and much needed service."

Residents wanting to check their vehicle emissions during April can locate the Farmington Astro Tune-Up at 31690 Grand River, two blocks west of Orchard Lake.

"The purpose of this analysis is to spot cars with excessive exhaust emissions," he concludes, "and other faults and recommend corrections to the owners of the offending cars."
