Money in Wastepaper
Government estimates that con-
tainers in the Pennington building,
home of the war department, give
up about 15,000 pounds of scrap
paper a day, which sells for \$18,000
a year. It takes 400 men and women
to empty the baskets and clean up
the building each night.

Engine for Fireplace
First turbine engine reportedly
was designed by Leonardo da Vinci
in 1550 and built about 1600. It was
fitted into a fireplace to turn a spit.

Indians Were Inventors

Indians of the Spokane tribe in
what is now Washington state had
zipper air conditioning and pres-
sure cookers long before the white
man. They air conditioned their in-
terior by making them of cedar
which would swell in the winter to
keep in the heat and dry and shrink
in the summer for free air circula-
tion. Zippers were made with a
band which slid down through used
in women's blouses and skirts.

Pressure cookers were well-worn
waterlight baskets into which hot
rocks were dropped to create steam
to cook the food.

of tone of low grade iron ore, and
eventually a way will be found
whereby this wealth can be tapped
profitably.

Any mention of the U. P. self-
improvement efforts must include
George Bishop's Upper Peninsula
Development Bureau which pro-
motes both the tourist and agri-
cultural industries there. Success
of the Keweenaw county park hotel
at Copper Harbor has won over
many private resort owners to sup-
port a move for a state-owned,
privately operated chain, at the Por-
cupine Mountains State Park and
perhaps a similar facility at the
Tahquamenon Falls State Park.

These parks now lack facilities to
attract and serve tourists.

Perhaps the only unexploited na-
tural resource of the U. P. is its
marvelous climate. You sleep un-
der blankets both summer and win-
ter. The air is cleansed and cooled
by the Great Lakes. When you are
in the U. P., you are in the North.

As we see it, the U. P. needs bet-
ter access through highways, air-
ports and perhaps ultimately a
bridge over the Straits. It sorely
needs modern tourist facilities
at the two key state parks, Porcu-
pine Mountains and Tahquamenon
Falls. It deserves a chance where-
by its people, ever resourceful, can
solve their own problems in an
American way.

Lighting Protection
Now is a good time to take pre-
cautions against lightning strikes.
Fires set by lightning are listed as
one of the major causes of farm
losses. The annual farm property
loss to lightning approaches 50
million dollars. More than 500 farm-
ers are killed by lightning each
year. Old and improperly installed
rods do not provide protection and
increase the danger of damage
from lightning. Rods should be
made of copper or galvanized iron
and conductors should be firmly
attached to the ground. Wire fences
should be grounded every 150 feet
to protect livestock.

Rev. Toepel, of the Community
Church, has returned from his
vacation. He is under-
taking a house-to-house canvass of
the community.

A special hymn-Sing was held at
the Neighborhood Church last
Thursday evening. A capable pi-
anist was on hand and particular
emphasis in practicing was given
the new, unfamiliar numbers.

"Social Security vs. Soul Security"
was the topic provoking much
discussion in the 7:30 service in
the Neighborhood Church.

September 14th is "Round Up"
Sunday for the Neighborhood
Church.

EDNA JUNE LUTZ
WILL ATTEND
STEPHENS COLLEGE

Miss Edna June Lutz, of Farm-
ington, has been accepted for ad-
mission at Stephens College in
Columbia, Mo., according to an
announcement made by the Board
of Admissions at the college. Re-
gistrations will be held from Sep-
tember 15 through the 19th, and
classes will start on September 20.

The 15th year at Stephens will
be the first under the leadership of
Dr. Homer Price Rainey, one of
the nation's foremost educators,
who assumed the presidency of
Stephens College on June 3 of this
year. The enrollment at the col-
lege is 2,250, with students from
every state in the nation and from
12 foreign countries, and posses-
sions.

Miss Lutz is the daughter of Mr.
and Mrs. John A. Lutz, 25864 Drake
Road.

Thank God

Rheumatic-Arthritic-Sciatic-
Neuritic Pains to try Muscle-Rub.

Here's the true story of a man who took treat-
ment using all kind of remedies for his sciatic
neuralgia pains without being helped in the
slightest degree. Mr. Robert Jordan of Colon,
Mich., suffered agony from pains in his hip-
bone—call of legs. The pain at times was so bad
he couldn't sit down. He tried several
different treatments, many different medicines,
all of which did him no good. He couldn't
work. Life was misery for him.
