WOMAN'S CLUB

(Continued from Page One)

the first two years, a short history of the early years was written some years ago by the late Mrs. Ernestine Pierce. She stated, "In the fall of 1897, at a call from Mrs. Ella Turner, a group of women assembled at her home on East Grand River, then known as the Clark house, to discuss plans for forming a woman's club in this village. Mrs. T. H. Moore was named as chairman and the meeting went into action. As a result of their deliberation, a club was organized to be known as the Ladies' Literary Club of Farmington. Officers chosen were Mrs. Florence Moore, president; Mrs. Ella Turner, vice president; Mrs. Carrie Northrup, secretary; Miss Flora Kennedy, assistant secretary, and as a subsequent meeting a charter was drawn up and rules adopted for the governing of the club." Mrs. Florence Moore was the wife of Dr. Moore, and mother of Farmington's City Clerk, Harry Moore. Mrs. Turner was the wife of Dr. Turner. The Turner home was the home of two of the present members of the club, Mrs. Chamberlain and Mrs. Ella Irish.

Continuing with Mrs. Pierce's account of the club's early history, we note: "During the second year, under the gentle ministrations of our second president, Mrs. Emma Wilber, the proposition for asking the council to purchase the plot of land adjoining the town hall for park purposes was considered. It carried in the Village and the Village cemetery received its appropriate title "Oakwood" during this year. The name was proposed by Mrs. Zayda Wilber and was accepted by the Council of the Village. The Village cemetery received its appropriate title "Oakwood" during this year. The name was proposed by Mrs. Zayda Wilber and was accepted by the Council of the Village. The Village cemetery received its appropriate title "Oakwood" during this year.

Mrs. Pierce continued: "The red carnation was adopted as our club flower during the third year. This very important year's work was completed by a farewell banquet tendered to our president who was about to leave us for a year's visit to her daughter in the west. This was the origin of 'President's Day'. This event is still observed each year in honor of our president who has left to us a fine legacy of all past presidents.

It is interesting to note the names of members for this year, 1899-1900. They were Florence Moore; Carrie Northrup; Lavorna Adams; Flora Hendry, secretary; Mary Webster; treasurer; Elizabeth Holcomb; Ernestine Pierce; Josephine McGee; S. Emma Wilber, president; Minnie E. Wilber; Zayda S. Wilber, vice president; and Librarian; and Agnes Chamberlain. The following year the membership included Martha Warner, and during the next one finds Ella Irish and Grace Nichols on the membership list. The next year one finds the name of Bertha Stehle for the first time, and the following year Mrs. Anna Cook is listed as an active member, and her mother, Mrs. Alice Way, as an associate member. Two years later Mrs. Edna Dohany was added for the first time.

The Ladies Literary Club of Farmington existed the Farmington Women's Club after 26 years of existence.

Most interesting was a scrapbook on display which contained programs of the club down through the years. Some of them had been worked out in great detail, and were both educational and inspirational. The history of the club concluded, "The Farmington Women's Club can be happy in the thought that through the 37 years of its existence it has held aloft high ethical and religious standards and has worked constructively together to build a better womanhood and through that, a better Farmington."

American Wood Ducks The wood duck, or summer duck, is a species of waterfowl which is found exclusively in North America and one of the very few which breeds in greater numbers in the United States than in Canada. His fall crest and winter plumage of iridescent greens, bronze, blues and purples combined with white breast give the male wood duck the deserved title of the most beautiful of all wild fowl. Timber cutting, swamp draining and summer shooting greatly reduced their range and numbers and, in 1918, they were completely protected. Since that time, the species has become more abundant but federal regulations in recent years still allow only one wood duck in the hunter's possession.

Twenty five Rebekah ladies chartered a bus and went to Jackson on Monday to visit the Odd-fellow and Rebekah Home. It was a very lovely trip and enjoyed by all who went. It is a beautiful place and really makes one feel like doing more for the cause when you see and talk to the residents of this home, and see how happy and comfortable they are, and how appreciative. One lady who has been in bed over a year said that money could not begin to pay the many kindnesses and thoughtful acts bestowed on her. Another said she never thought a place like that could be so homey, with warm, light rooms and plenty to eat. Everyone decided that was true, for as they passed through the kitchen on a tour of inspection, they were dressing ducks for their Tuesday dinner. Those visiting the home bought aprons, handkerchiefs, lace, chair sets, dollies and holders, all made by the ladies at the home. You are all welcome to go.

Throughout the middle ages and up until the period of the French revolution, many of the forests were owned by kings and emperors. Hunting rights on these forests were reserved exclusively for the rulers, and the cutting of timber without royal consent was a crime subject to severe punishment. Actual forestry practice, as we think of it today, however, did not begin until considerably later, and the history of cities like Zurich, Frankfurt, Nuremberg and Vienna shows that an orderly procedure of handling forests did not develop until after the tenth century.
