# Reorganized Closet A Joy To Behold

Does your linen closet usually look as if a cyclone had just hit? If it does, here are some tips on a complete reorganization from the Rubbermaid Company:

- First, take everything out of the linen closet. Check the items as you do. If there are worn or frayed towels, wash-cloths or sheets you're no longer using, relegate them to the rag bag or will them to the handyman around the house.
- Clean the closet walls and shelves. Lay down fresh new shelf liner while you're at it. And keep out those pesky moths with a good moth-proofing before you put the linens back.
- Next, decide where it's most sensible to store things. This may require some reorganization.

**COORDINATED SHEETS** and wallcovering give your own special closet an all-over look. Vinyl wallcovering is prepepped and strippable. Sheets are wash and wear. Paper is used on shelves and floor as well as on the walls and sliding doors. Sheets are from Springs Mills and wallcovering from Imperial.

Separate stacks of sheets for convenience. Put the single bed sheets together. Then pile the doubles together if you have room. Divide fitted and flat sheets too.

And it's practical to rotate the linens. When they're washed and folded, stack them under the linens already in the closet. Then they'll all get equal wear.

Use all available space.

**TRY SOME** of the new stacking devices and organizers. For instance, install double-tiered slide-out drawers. They're available in several widths to fit most closets and they slide out easily so you can reach those hard-to-get-at things.

Pile one drawer with pillowcases. Fill another with

handtowels and wash-cloths. You'll double the valuable space and be able to put your finger on just what you want instantly.

Make a home "drugstore." Use a large revolving turntable for those items you're always running out of, like deodorant, hair spray, aspirin, toothpaste and toilet tissue.

You'll save money by being able to buy paper products and other toiletries in large quantities when they're on special.

The linen closet is a good place to keep supplies for quick mending and sewing jobs, too. Use a portable susan for the needles and thread, scissors and pins.

Now stand back and admire your handiwork. Wasn't it easy?

## Getting Rid Of Trash

A compactor is now available that reduces the bulk of a week's trash for an average family to a 1 1/2-foot cube weighing about 25 pounds. It runs on electricity and has built in sanitary and safety features. For free information, write to the Planning - Heating - Cooling Information Bureau, 35 E. Wacker Dr., Chicago, Ill. 60601.

## Floor Tile Used To Cover Shelves

If you're going to redecorate and are looking for "something different" try covering shelves and part of the wall with the same tile used on your floors.

Tying in the floor pattern with other areas is a simple but very effective decorating device.

It works well in youngsters' bedrooms, recreation rooms, in the attic, in a hall or near an entranceway.

It can also be done in kitchens, baths and laundries on counters where moisture is not excessive. These are all areas where easy maintenance is important and nothing is easier to maintain than resilient floorings, especially vinyl asbestos tile.

The adhesive-backed vinyl asbestos tile is ideal for use on shelves, and some manufacturers okay its use on walls too. It is easy to handle - all you do is peel a paper from the back of the tile and press in place - and it can be cut to fit with an ordinary scissors. Standard edging trim may be used if desired.

It stands up well under the roughest kind of use and is wiped clean in seconds. Scratches can be rubbed away with fine steel wool.

To be absolutely certain tile will adhere properly in the vertical position on a wall, the Better Floors Council recommends using regular

tenance is important and nothing is easier to maintain than resilient floorings, especially vinyl asbestos tile.

## Annual Forum April 19-21

The 11th annual Clara B. Ford Garden Forum will be held at Greenfield Village, April 19, 20 and 21.

This is an event that many area gardeners look forward to, a chance to savor the gracious early - American atmosphere of Greenfield Village and to attend lectures, films and demonstrations by the country's outstanding garden experts.

There is an optional bus tour to a commercial nursery. Fees for the entire forum, including a banquet Friday evening, are \$24. The charge for a single day is \$5.50 or for just an evening, \$3.

To register for the garden forum, or for further information call Greenfield Village Education Department.

### Spring Is The Time To . . .

Plant a Fall Grown Tree

Folk, I have specialized in Shade Trees and have supplied thousands of street plantings, industrial, schools, churches and residential. I feel that the right selection of a shade tree is perhaps the most important decision that a home owner is faced with, in landscape planning. You may select your tree "for it" and have planted it with convenience.

**Now Ready for Immediate Planting**
