The big news is PONTIAC

A FINE CAR MADE EVEN FINER

GM Hydra-Matic Drive

optional* on all models

A greater car... and a greater value!

A year ago today, if you had asked the owner of a new Pontiac what could be done to improve it, he would very likely have told you—"Nothing at all, I like it just as it is."

That's why, for the thousands of people all over the country who have known Pontiac in the past, the 1948 Pontiac is the big news of the year. For here is a fine car made a great deal finer!

There is new beauty—beauty that starts with the re-styled "Silver Streak," and extends from the striking handsome grille to the refined exteriors and luxurious interiors of the smart Fisher bodies.

There is new dependability—for the sturdy Pontiac chassis has been improved wherever possible.

And there is unbelievably fine performance—for not only have the great Pontiac engines been refined and improved—but Pontiac now offers, as optional* equipment, the sensational General Motors Hydra-Matic Drive.

With this miraculous mechanism, you just sit back and relax! There is no clutch pedal, and the gears shift themselves. The new Pontiac is now on display in our showrooms. There are fifteen beautiful models—each a great car and a great value.

*GM Hydra-Matic Drive, Bumper Guards and White Sidegull Tires optional at additional cost.
