WINS MEDAL

MISS JOAN SEITZ

Miss Joan Seitz, twin daughter of Mr. and Mrs. George Seitz of 33309 Shiawassee, was the happy recipient of the silver medal given by the Farmington Woman's Christian Temperance Union, in cooperation with the Methodist Sunday School, last Sunday morning at the "Sunday School hour." The presentation was made by Mr. Genial Donose, the school's superintendent. The class of five girls who entered the speech contest all did nicely and the other four contestants will enter another group, who will try again in two weeks. A good crowd enjoyed the program, which was conducted by Mrs. William Lancaster, contest director of W.C.T.U. work.

SOIL CONSERVATION PROGRAM CLOSING DATE ANNOUNCED

Farmers of Oakland County are reminded that the closing date for signing up in the 1948 Agricultural Conservation Program is May 1.

The 1948 Agricultural Conservation Program provides for assistance in applying lime materials, Superphosphate or Potash on meadows and pastures, plowing under of green manure crops, pasture establishment, cross slope row crop and seedlings, tile and open drainage ditches and tree planting.

Walter R. Cook, chairman of the County Agricultural Conservation Committee, explained that the Agricultural Conservation Program provides for a joint attack on erosion of the soil and waste of water. In this program the nation, through the government, cooperates with the farmers who operate the land in a program to conserve and protect the land so that it will keep on producing food and fiber.

By cooperating in the 1948 Agricultural Conservation Program each farmer will add his bit to the nationwide effort to conserve the Nation's most valuable natural resources—soil and water.

Farm plans may be signed at the County Office, 320 Hubbard Building in Pontiac or arrangements may be made to have this done by mail.

Captain and Mrs. Arthur Smith of Redford were dinner guests Sunday at the home of Mr. and Mrs. H. C. Lang, Sr., of Farmington. Sunday afternoon they all called on Mr. and Mrs. Paul Button and had a pleasant visit with them.

Township Board

(Continued from Page One)

dents were present at the meeting, requesting the assistance of the board in eliminating nuisances in their neighborhood. One complaint concerned the papers and other refuse which accumulates about the driveway-hamburger stand on Grand River Avenue, west of Middlefield Road. A second complaint was against a garage on Antago, where neighbors stated work continued far into the night, often until the early morning hours, and the noise made it impossible to sleep. They also stated that cars which are being serviced are parked along the roadway, making it impossible to walk anywhere except out in the road, a very dangerous practice for the many small children in the community.

The Board assured the people that they would give them all the help they could in maintaining clean and orderly places throughout the Township, and would see if some action could not be taken in these two instances.

Another resident, Mr. Howard Eldridge, was present at the meeting in regards to straightening out a water bill. The matter was delayed until Mr. Eldridge could meet with the Township auditor.

A communication from the Faulkner Construction Company was read, asking permission to change a water hydrant at the corner of Eight Mile Road and Ontario. Township Clerk Harry McCracken was instructed to write the company, giving them permission to raise the hydrant to the level they required, under the supervision of the water commissioner. The company agreed to pay all costs for moving the hydrant.

WATER EXTENSION DENIED
A request was made for water service to the small cement block building located on Grand River Avenue at Tulane. The Board voted to deny the request for service inasmuch as this location is beyond the limits of the present water system, and the water supply is so limited at certain times of the year that present customers are not always able to have as much water as they desire. An extension of the system would bring additional requests for service which could not be filled under the present setup. Dr. John P. Vos was reappointed.

ANTIQUES

Add interest to your home with antiques which grow more valuable with the years. We suggest furniture, dishes or lamps or old glass and are offering a fine selection. Feel free to come and see them.

KIWANIS CLUBS TO OBSERVE CANADA GOOD WILL WEEK

Pointing out to the world that the United States and Canada have lived as peaceful neighbors for more than 150 years, President Truman and Prime Minister King jointly declared today that the unfertilized boundary between the two countries serves as an outstanding example of international good will.

The two Chief Executives, in letters to Dr. Charles W. Armstrong, president of Kiwanis International, lauded the friendship of their countries as Kiwanis clubs in nearly 3,000 communities prepared to observe United States-Canada Good Will Week from April 25 to May 2.

President Truman said that "Americans and Canadians are proud, not of the fact that they have never had a difference, but that their friendship has survived differences and has remained strong." He expressed the opinion that observances such as United States-Canada Good Will Week have "greater significance today than ever before."

Citing the "long-standing and increasingly close friendship between Canada and the United States," Prime Minister King declared "it is an example of international good will which, in these days, should afford the highest possible inspiration to all nations of the world which seek peace by negotiation and conciliation."

Dr. Armstrong said that Kiwanis in the United States and Canada will observe the week "as a period for strengthening the ties that bind our two countries." Kiwanis clubs across the border will exchange speakers and messages of good will, he added.

Schools for Youngsters
Among reasons cited for schools for young children are: The large number of children currently in areas of dense population; large number of small families where young children need companionship; increased proportion of families headed by women and the large number of women employed outside the home. These conditions have brought about a need for expansion of nursery schools and kindergartens.

Magnesium Metals
Germany in 1913 became the first country to produce magnesium metal.

When feeding turkey poulters have plenty of feedstuffs filled with a mesh that will supply all the essential nutrients to give the poulters a proper start. MSC poultry specialists advise that feeders must be low and distributed around the hover, where there is ample light. For the first few days the angle of the feeders should extend under the edge of the hover if an electric brooder is used.

Farmington, The City Beautiful ! !

'Taint our fault if it aint, we're doin' our share. Tuesday when the big blow came up a whole rack of seeds upset out front so if there's sweet wivelsfield growin' along side "Uncle Nick's" joint and the "Weekly Blah" is surrounded with petunias, we dun it! We done a lot of things, fer instance we decided to sell our 46 oz. grapefruit juice at 2/45c this week end. It's Crosse and Blackwell's stuff so it aint nothin' seedy.

Asparagus aint got seeds, too. We got some new fresh stuff in great big bunches and you can have all you want for 29c a lb. The "cukes" aren't in bunches, they're by the each, but if you wanna bunch of 'em — take a lot — take three — they're 3/25c. Anen if you wanna double up on things take 6 lbs. of Michigan Spys for 49c. If you aint doubled up enuf yet take 12 Sunkist California oranges for 69c. These are great big ones — like little grapefruit — only they're sweet.

Got any old sauer kraut layin' around you wanna get rid of? Our spare ribs for 49c a lb. are the talk of the town. Know why? They've got meat on 'em. Chances are we'll run out of 'em before Saturday night and you'll have to settle for a hamburger or six. A lb. for 49c will make a lot of 'em. Want yours sliced or in a piece — with or without onions — or maybe a cheeseburger? The cheese we're talkin' about is Velveeta, big or little packages. The little ones are 2/65c and the big ones are \$1.09 and the green grass is growin' all around!!!!

In case you're interested we got more of our own bacon and sausage. It was terrible awful good — wasn't it??
