come along during the next week. Just for instance, two famous birthdays fall right on the Fourth of July itself, and we don't mean birthdays fall right on the Fourth of July itself, and chark The birthdays are those of Nathaniel Hawthorne, born in 1804, and Calvin Coolidge, born in 1872. And then we have John Paul Jones, born July 6, 1747, and Elias Howe, the inventor of the sewing machine, was born July 9, 1819.

ottage, but, others are just now getting away, and many of them plan to spend all the remaining weeks of summer vacation in the north. We would, probably all do exactly the same thing if we could, for there is something stimulating and invisorating about the north that one can get no place else. If you are not fortunate enough to be able to stay, it's mighty nice to have even just a long week end or two.

now that the Hocking-Gillies shoe Store is going to open in the new store building just east of the Farmington Post Office. Folks began to store building just east of the Farmington Post Office. Folks began to set curious when they saw the shelving going up, and this week came the announcement that the new shoe store will be open about the first of August. The term business will make a good addition to first of August. The term business will make a good addition to Farmington's business district.
