Novi News

By MRS. GEORGE WAITE

Saturday guests of Mr. and Mrs. Nicholas Day of Gill Road were Mr. and Mrs. Ray Wrench of Detroit, Mrs. Lester Lemanski and Mrs. John Pavel and small son, Johnnie, also of Detroit. On Sunday the Days entertained Mr. and Mrs. Jewel Bodenbach of Farmdale.

Mr. and Mrs. Lyman Bush and sons were the Saturday evening guests of Mr. and Mrs. Leslie Peters of Walling Lake.

Mr. and Mrs. Frazor Hulls and daughter, Mary, returned home on Sunday night from a week end trip which took them through Canton, Ohio and Wheeling, West Virginia, and along the Ohio River. They reported that the farm crops in southern Ohio looked very good, but they saw many places along the Ohio River that made them very glad to come back home to Michigan.

Mr. and Mrs. Reginald Dunbar, Reggie and Sandy, left last week for a vacation near Boston, Massachusetts, where Mrs. Dunbar and children will spend the summer with her parents.

The members of the Methodist Church Adult Bible Class met at the home of Mr. and Mrs. C. R. Bratton on the Wixom Road. Thirty-two members enjoyed the pot luck supper together. On Tuesday, August 10, the class members will meet with Mr. and Mrs. Roy Herington on 22410 Pembroke in Redford, at 6:30 p.m. for a pot luck supper.

Maxine and Loren Roush of Westmore, Kansas, are visiting their uncle and aunt, Mr. and Mrs. Ralph Barge of Farmington. Maxine is employed by the Hall Printing Company of Topeka, Kansas.

Miss Betty Hunt was the week end guest of Mr. David Ernst of Grand Rapids.

John Klasermer, who was 31 years old on July 17, celebrated by spending the week end at Lima, Ohio. Mrs. Helen Olivich was a Detroit shopper on Friday.

Mrs. Susie Maier, Mrs. Lillie Leavenworth, Mrs. Bertha Wood and Mrs. Caroline McCollum drove to the Infirmary on Thursday to visit with Mrs. Lillie Coates, but found her absent. They had taken candy and other delicacies out to be given to the patients there, so visited around anyway.

Mrs. Margo Jennings is entertaining her niece for a few days. Mrs. Fawn Rowley gave a pink and blue shower on Saturday evening at her home, honoring Mrs. Jerry Trotter. Games were played and a lovely lunch served.

Bob Hanson and Harold Tuck drove to Kalamazoo on Saturday and attended the races.

Mrs. Irene Maier entertained 22 little girls at luncheon on Friday honoring the tenth birthday of her daughter, Lillias. Lillias also entertained Judy Hicks from Arizona for a few days.

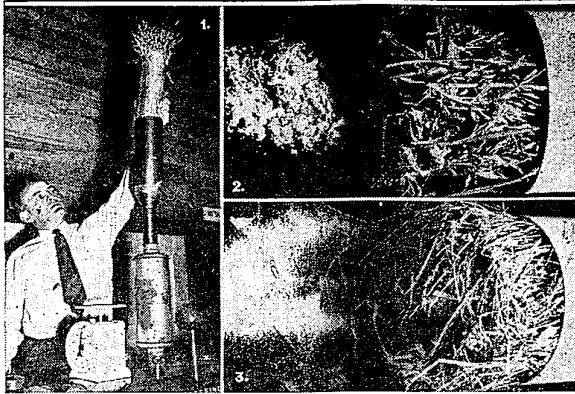

The Frank Tamms entertained guests from Detroit over the week end.

The Amvets will be entertained at the home of Mrs. Lil Trickey and daughter, Laree, on Tuesday evening.

The Novi School Reunion was held at the school on Saturday with a pot luck supper at 6:30, there being about 100 present.

The Past Noble Grands will be entertained at the home of Mrs. Helen Olivich on Thursday.

SIMPLE TESTS HELP HAYMAKING

Michigan farmers will find that two tests devised by a Michigan State college scientist will be of help in making hay or grass silage this year. The first test is shown in picture 1 where Dr. S. T. Dexter, farm crops specialist at the Michigan Agricultural Experiment Station, fits a hay sample in his "oven-type" moisture tester on the exhaust of a tractor.

These tests will be demonstrated at all of the Michigan State College Grass Day demonstration programs being held in lower Michigan during June.

The heat generated by the motor of the tractor drives the water from

a sample of hay and permits quick calculation of the hay's moisture content. Equipment needed to the oven, a round cylinder of sheet metal to hold the sample, a scale and a thermometer. The hay sample is weighed, put in the oven and the motor started. The sample should be turned occasionally and the engine speed adjusted to avoid scorching. When the sample reaches constant weight, the percentage of moisture can be figured by dividing the loss in weight by the original weight of the sample. The farmer can then determine if it is necessary to let the hay in the field dry more before storage.

Pictures 2 and 3 show Dexter's

quick storage test. Materials required include a quart ice cream box, some ammonium chloride salt from the drugist, and a hay sample. The hay is put in the box with a small teaspoonful of the salt. The cover is placed on the box and shaken 100 times. If the salt is sticky and clumped together (as in picture 2) the hay is too damp to store safely. If it remains in its original state (picture 3) the hay can be stored safely under ordinary farm conditions.

Details for the construction of the oven-type tester may be secured by writing to the Farm Crops Department, Michigan State College, East Lansing, Michigan.

Insect Control Vital For Top Efficiency From Fertilizer Use

CHICAGO — Uncontrolled insects and diseases can cut the efficiency of the plant food you add to your soil declared the Middle West Soil Improvement Committee in a statement issued here.

"Adequate nutrition is the No. 1 essential for high yields," says the statement, "but vigilance in fight against insect enemies is vital too. That is why it is so important to control infestations of the corn borer — destructive insect pest in the Corn Belt."

The committee points out that corn stalks, left on top of the ground are excellent "homes" for corn borers over the winter and spring months.

"Unless these borers are destroyed before they emerge in the spring," it warns, "they will infest early planted corn."

Entomologists recommend the following steps for controlling corn borer infestation and promoting full yields of corn:

1—Complete plowing under of cornstalks before the moths emerge. This also has the advantage of adding organic matter to the soil.

2—Delay corn planting until after the first flight of moths.

3—High value crops such as sweet corn and hybrid seed may be profitably sprayed if planted early, according to state authorities.

Combine insect and disease control with plenty of plant food and improved soil till for top yields and high profits, says the committee.

The soil till can be built up by deep-rooted legumes in the rotation. These will add organic matter, build soil structure and make the soil a better "sponge" for rainfall.

"These control measures often involve timeliness of plowing and planting," says the statement, "plus a little extra care for clean plowing."

"Their advantage lies in continuity. You may get by without them in one year. But you may have costly losses in another year."

Camp season activities started in July for Sabon Youth Fellowship members with the appointment of Miss Frances Hough as counselor at the Ohio-Synod Junior-Hill Camp near Akron, Ohio. Miss Hough led a group of counselors and led the Camp Senate.

George Barrons is serving as counselor at the Odd Fellows Children's Camp in northern Michigan. Miss Margaret Maas has been appointed to serve as counselor at the same camp.

The Senior Campers and those studying leadership training are attending the Michiana courses at Olivet College this week. Those registered are Vern Dietrich, Ruth Gazeley, Frances Hough, Enid Kelly, Margaret Maas, Margery Morris, Milton Grabau, Lee, Ernest and Elliott Tyler.

Two Farmington Girls Attend YWCA Camp

Taking an active part in all the fun at Camp Talahi this week are two girls from Farmington: Hilda Weilandt, 28515 Seven Mile Rd., and Ethel May Hatter, 28515 Seven Mile Rd.

Talahi, a camp exclusively for working girls, is owned and operated on a non-profit basis by the YWCA of Detroit. Swimming, tennis, archery, fencing, boating and crafts are among the activities included in the \$22.00 per week fee. Horseback riding is available at an hourly rate.

This week campers are planning a hayride, cookouts, stunt night and a Saturday night square dance. Because Talahi is for employed girls it has no set schedule. Girls plan their own activities. Staff members are on hand to see that everyone gets acquainted and to offer expert sport instruction to those who want it.

Mrs. Anne Lindsay, camp director, states that openings exist for weeks or week-ends.

Clarenceville News

By MRS. ALBERT KELLY

The Parents Club of Clarenceville met with Mrs. Walter Thurman on July 14, with fourteen members in attendance. After a light lunch the meeting was called to order by the president. This group has clothed two boys to attend the Free Press Fresh Air Camp for a two weeks period. The ladies discussed a number of subjects, and made plans for their picnic to be held August 4 at the home of Mrs. Diddams.

Mr. and Mrs. Harold Thornton are receiving congratulations on the birth of a daughter, Linda Ann, weighing seven pounds, six ounces. She was born July 8.

Mr. and Mrs. Homer Jones and daughters visited with his sister and family, Mr. and Mrs. Cecil Barnes of Mishawaka, Indiana, on Wednesday to Friday of last week. Sylvia Jones remained for a longer visit with her uncle and aunt.

Mrs. Milton Knight left Wednesday for Pasadena, California for a visit with her parents, Mr. and Mrs. Frank Tadden.

Mr. and Mrs. Maurice Frederick and sons spent part of last week at Osego, Michigan, where they were the guests of Mr. and Mrs. Allen Cramer and family.

PONTIAC

Fine for its Second owner too!

Recently, a large group of used car owners were asked what car they would buy if they were buying new cars today. Those who own Pontiacs led them all in saying they would buy new cars of the same make they are now driving.

In other words — according to this survey — a used Pontiac is more satisfactory to own than any other make of used car.

Of course, that could mean only one thing: Pontiac's dependability and long life are outstanding.

Remember, too, Pontiac is the lowest priced car in the world offering GM Hydra-Matic Drive — a tremendous advance in better motoring.

It's wise to choose a Pontiac — a car so fine that even its second owner is sure to like it.

*General Motors Hydra-Matic Drive and White Sidewall Tires optional at additional cost.
